United Nations

[UN Security Council \(UNSC\) Resolution 2368 \(2017\)](#) adopted on 20 July 2017 reiterates its “unequivocal condemnation” of the Islamic State in Iraq and the Levant (ISIL, also known as Da’esh), Al-Qaida, and associated individuals, groups, undertakings, and entities for ongoing and multiple criminal terrorist acts aimed at causing the deaths of innocent civilians and other victims, destruction of property, and greatly undermining stability. The Resolution calls upon all states to impose the measures imposed by paragraph 8 (c) of [UNSC Resolution 1333 \(2000\)](#), paragraphs 1 and 2 of [UNSC Resolution 1390 \(2002\)](#), and paragraphs 1 and 4 of [UNSC Resolution 1989 \(2011\)](#). These measures include an asset freeze, travel ban, and an arms embargo.

The resolution also sets forth the listing criteria and clarifies that the obligation in paragraph 1 (d) of [UNSC Resolution 1373 \(2001\)](#) applies to making funds, financial assets or economic resources or financial or other related services available, directly or indirectly, for the benefit of terrorist organizations or individual terrorists for any purpose, including but not limited to recruitment, training, or travel, even in the absence of a link to a specific terrorist act.

The Resolution also adds eight names to the sanctions list, set forth the responsibilities of the Monitoring Team established pursuant to paragraph 7 of [UNSC Resolution 1526 \(2004\)](#), (which is extended for 24 months) and the authorized tasks of the Office of the Ombudsperson, established by [UNSC Resolution 1904 \(2009\)](#), upon receipt of a delisting request submitted by, or on behalf of, an individual, group, undertaking or entity on the ISIL (Da’esh) & Al-Qaida Sanctions List or by the legal representative or estate of such individual, group, undertaking or entity.

World Trade Organization (WTO)

WTO members review three regional trade agreements

The WTO [announced](#) that members reviewed three Regional Trade Agreements (RTAs) at a meeting on 29 June as part of their efforts to increase understanding of how these RTAs relate to WTO rules and impact members as well as the multilateral trade agenda. Members considered the *Korea-Viet Nam Free Trade Agreement*, the *Deep and Comprehensive Free Trade Area between the European Union and Ukraine*, and the *Georgia-Russia Free Trade Agreement* at the meeting of the Committee on Regional Trade Agreements (CRTA). They also discussed the issue of notifications of RTAs.

General Council approves Trade Policy Review mechanism

On 26 July 2017, the WTO [announced](#) that The WTO General Council approved landmark reforms to the Trade Policy Review Mechanism (TPRM) to improve the process of reviewing members’ trade policies and practices and the monitoring of the global trading environment. This WTO said that the consensus decision to amend the TPRM for the first time since its establishment in 1989 demonstrates members’ continued success in enhancing the workings of the WTO.

The Trade Policy Review Body (TPRB) agreed on 27 January 2017 to submit [the proposal](#) to the General Council to amend the TPRM as contained in Annex 3 to

the Marrakesh Agreement Establishing the WTO. Following approval by the General Council, the amendment has been officially incorporated into the WTO Agreement, [pursuant to paragraph 8 of Article X of the Marrakesh Agreement](#).

Trade Policy Review: European Union, Brazil

The thirteenth review of the trade policies and practices of the European Union took place on 5 and 7 July 2017. The basis for the review was a [report by the WTO Secretariat](#) and a [report by the European Union](#).

The seventh review of the trade policies and practices of Brazil took place on 17 and 19 July 2017. The basis for the review is a [report by the WTO Secretariat](#) and a [report by the Government of Brazil](#)

DSB activities

During the period covered by this update, the Dispute Settlement Body (DSB) or parties to a dispute took the following actions or reported the following activities. Requests for a panel are not listed (click on “DS” number to go to summaries of the case, click on “Activity” to go to the latest news or documents):

DS No.	Case Name	Activity	Date
DS371	Thailand - Customs and Fiscal Measures on Cigarettes from the Philippines (Re-course to Art 21.5 DSU by Philippines)	Second request for consultations regarding implementation	06-07-17
DS486	European Union — Countervailing Measures on Certain Polyethylene Terephthalate from Pakistan (Complainant: Pakistan)	Panel report issued	

TBT Notifications

Member countries of the WTO are required under the *Agreement on Technical Barriers to Trade* (TBT Agreement) to report to the WTO all proposed technical regulations that could affect trade with other Member countries. The WTO Secretariat distributes this information in the form of “notifications” to all Member countries. [See separate section on WTO TBT Notifications](#) for a table which summarizes notifications posted by the WTO during the past month.

The Americas - Central America

Guatemala-Honduras Customs Union commences, other countries to join

On June 26, 2017, the Customs Union between Guatemala and Honduras entered into force. The Union uses the Central American Single Invoice and Statement ([Fyduca](#)) as an export document and invoice at the same time. This document supports the payment of taxes in the country of destination and compliance with non-tax requirements (notification of sanitary and phytosanitary measures, for example).

Single Window for Exports (VUPE) procedures will continue to operate normally for exports and will be supporting companies with information on the implementation of new documents and procedures.

The governments of Nicaragua and El Salvador have started the observation process, a step in the process to join the Customs Union which is being referred to as the Central American Customs Union. On July 27, 2017, the Salvadoran Ministry of Finance [reported](#) that tri-national meetings have been held with representatives from Guatemala and Honduras at the Secretariat of Central American Economic Integration (SIECA), located in Guatemala City, to learn how the Union addresses tariffs, customs, internal taxes, agriculture, migration, origin and air transport. The Salvadoran Ministry of Finance [reported](#) on July 28, 2017 that technical meetings were held internally in which the Directorates of Customs and Internal Taxes, among other entities participated to design a road map for El Salvador joining the Union.

The Americas - North America

Canada

Canada signs MRA regarding trusted trader programs with Israel and Australia

The Canada Border Services Agency (CBSA) [announced](#) the signing of a Mutual Recognition Arrangement (MRA) with Australia's Department of Immigration and Border Protection (DIBP) and a [separate one](#) with the Israel Tax Authority (ITA) regarding their respective Trusted Trader programs.

The announcements said that Trusted Trader programs enhance the security and integrity of the global supply chain through the establishment of customs to business partnerships and by providing streamlined border processes to pre-approved, low-risk traders.

This MRA signifies that the CBSA's Partners in Protection (PIP) program members will be recognized by, and receive trade facilitation benefits from, the DIBP and the ITA. The CBSA will reciprocate by providing similar benefits to members of the Australian and Israeli Trusted Trader programs.

President Signs Iran, Russia, and North Korea Sanctions Bill

On August 2, 2017, the President signed into law the [Countering America's Adversaries Through Sanctions Act](#) ("CAATSA"), a bill that he called "seriously flawed" [in a statement about CAATSA](#) issued at the same time he signed the bill.

As discussed in our prior blog posts [here](#), [here](#), and [here](#), CAATSA calls for the imposition of certain additional sanctions targeting Iran, Russia, and North Korea. The timing and implementation of many of these sanctions remains uncertain. While some provisions in CAATSA require the President to implement the sanctions within a prescribed period of time (e.g., the modifications to Directives 1 and 2 under US Sectoral Sanctions will take effect 60 days after the US Treasury Department's Office of Foreign Assets Control ("OFAC") modifies them), others do not and will require implementing action by the Executive Branch (e.g., designation of parties targeted under CAATSA). In addition, it remains to be seen whether or how the President will implement CAATSA's discretionary provisions, including sanctions targeting Russian energy export pipelines.

The principal Russian sanctions provisions are as follows:

- **Restrictions on President's Authority to Relax Sanctions.** Efforts by the President to relax, suspend, or terminate the Russia-related sanctions currently in effect will be subject to mandatory review by Congress.
- **Codification of Existing Russia Sanctions.** CAATSA will codify the Russia-related sanctions currently in effect under Executive Orders 13660, 13661, 13662, 13685, 13694, and 13757, including sanctions against parties designated pursuant to those Executive Orders to date (i.e., those currently designated to the Specially Designated Nationals and Blocked Persons List ("SDN List") or under the sectoral sanctions).
- **Tightening of Existing Sectoral Sanctions.** CAATSA will modify the Russian sectoral sanctions implemented by OFAC pursuant to Executive Order 13662. This includes:
 - **Directive 1** will be modified to prohibit dealings by US Persons in new debt of longer than **14 days maturity** (down from 30 days) of Russian financial institutions designated pursuant to this directive.
 - **Directive 2** will be modified to prohibit dealings by US Persons in new debt of longer than **60 days maturity** (down from 90 days) of Russian energy companies designated pursuant to this directive.
 - **Directive 4** will be expanded to prohibit the provision by US Persons of goods, non-financial services, or technology in support of exploration or production for "new" deepwater, Arctic offshore, or shale projects that have the potential to produce oil **anywhere in the world** (i.e., no longer limited to Russia) and in which a Directive 4 entity has a 33 percent or greater ownership interest.
- **Imposition of Additional/New Secondary Sanctions.** This includes:
 - Secondary Sanctions that Apply to Non-US Persons.
 - Mandatory sanctions on non-US persons that knowingly make significant investments in "**special Russian crude oil projects**" (projects intended to extract crude oil from the exclusive economic zone of Russia in waters more than 500 feet deep, Russian Arctic offshore locations, or shale formations located in Russia).
 - Mandatory correspondent banking restrictions on non-US financial institutions that knowingly engage in significant transactions involving activities related to the sale of defense articles to Syria or "special Russian crude oil projects" or knowingly facilitate significant transactions with SDNs.
 - Mandatory sanctions on Russian government officials and their close associates and family members for acts of "**significant corruption**" in Russia or elsewhere.

- Mandatory sanctions for non-US persons involved in **serious human rights abuses** in any territory forcibly occupied or otherwise controlled by the Russian government.
- Mandatory sanctions on non-US persons that export or transfer to **Syria** significant financial, material, or technological support that contributes materially to the Syrian government's ability to acquire weapons and other defense articles.
- Secondary Sanctions that Apply to US and Non-US Persons. Notably, a novel aspect of some of these secondary sanctions provisions is that they may apply to activities by US Persons that are not necessarily prohibited under US law. In other words, assuming no violations of other US laws, companies that engage in some of the activities described below will not necessarily be liable for civil or criminal penalties under US law, but may nonetheless be at risk for the imposition of secondary sanctions.
 - Mandatory sanctions with respect to any person that knowingly engages in **activities that undermine cybersecurity** "against any person, including a democratic institution, or government" on behalf of the Russian government.
 - Mandatory sanctions on **foreign sanctions evaders**, i.e., persons facilitating significant deceptive or structured transactions (related to currency reporting) for or on behalf of any person subject to the Russia-related sanctions or any child, spouse, parent, or sibling of a sanctioned person.
 - Mandatory sanctions on parties knowingly engaging in **significant transactions with the intelligence or defense sectors of the Russian government**, including persons acting for the Main Intelligence Agency of the General Staff of the Armed Forces of the Russian Federation ("GRU") or the Federal Security Service of the Russian Federation ("FSB"). CAATSA authorizes the President to delay the imposition of such sanctions, however, if certain conditions are met.
 - Discretionary sanctions related to **Russian energy export pipelines**, targeting parties that (i) knowingly make an investment that directly and significantly contributes to the enhancement of the ability of Russia to construct energy export pipelines, or (ii) sell, lease, or provide to Russia goods, services, technology, information, or support that could directly and significantly facilitate the maintenance or expansion of the construction, modernization, or repair of energy pipelines, and where the investment or transaction has a fair market value of \$1,000,000 or more, or that, during a 12-month period, has an aggregate fair market value of \$5,000,000 or more. These sanctions are to be imposed (if at all) "in coordination with allies of the United States."
 - Mandatory sanctions related to investments in, or facilitation of investments in, the **privatization of Russia's state-owned assets** for \$10,000,000 or more (or any combination of investments of not less than \$1,000,000 each, which in the aggregate equals or exceeds \$10,000,000 in any 12-month period), if the investment contributes to Russia's ability to privatize state-owned assets in a manner that unjustly benefits Russian government officials or their close associates or family members.

We summarized the key **Iranian** and **North Korean** sanctions in our prior blog posts, which remain current and are reproduced for reference below:

Iran-Related Sanctions

- Mandatory blocking sanctions on any person that knowingly contributes to Iran's ballistic missile program, who are officials, agents or affiliates of the Islamic Revolutionary Guard Corps, or who knowingly supply or support the supply of arms,

combat vehicles, etc., to Iran or provide related technical training or services to Iran.

- Designation of persons responsible for human rights violations in Iran.

North Korea-Related Provisions

- Requires the President to designate to the SDN List persons that engage in certain North Korea-related activities that are prohibited under [UN Security Council resolutions](#).
- Provides the President with discretionary authority to designate persons to the SDN List that engage in certain activities involving North Korea, including:
 - Purchasing significant types or amounts of textiles from the Government of North Korea,
 - Selling or transferring significant amounts of crude oil, petroleum products, liquefied natural gas, or other natural gas resources to the Government of North Korea,
 - Conducting significant transactions in North Korea's transportation, mining, energy, and financial services industries,
 - Engaging in certain other North Korea-related activities prohibited under [UN Security Council resolutions](#).
- Prohibits US financial institutions from maintaining, administering, or managing indirect correspondent accounts that benefit any parties designated under this legislation. However, US financial institutions are authorized to process transfers of funds to or from North Korea if the transfer is authorized by an OFAC specific or general license and does not involve debiting or crediting a North Korean account.
- Imposes shipping sanctions against North Korea that include a prohibition on the entry of certain foreign vessels over 300 gross tons in navigable waters of the United States. These prohibitions apply to:
 - Vessels owned or operated by or on behalf of the Government of North Korea or a North Korean person, and
 - Vessels owned or operated by or on behalf of a foreign country in which a sea port is identified as having failed to implement or comply with certain UN Security Council resolutions targeting North Korea. Such sea ports will be identified in reports submitted by the President to Congress identifying the operators of such foreign sea ports. CAATSA specifically requires the reports to include findings related to certain sea ports in China, Iran, Russia, and Syria.
 - Prohibits the importation of any significant goods, wares, articles, and merchandise manufactured by the labor of North Korean nationals unless a finding by U.S. Customs and Border Protection establishes that they are not the products of convict labor, forced labor, or indentured labor.

President extends national emergency with respect to Lebanon

On July 28, 2017, the President signed the [Notice of July 28, 2017 -- Continuation of the National Emergency With Respect to Lebanon](#) (published in the *Federal Register* on July 31, 2017) which extends for an additional year the national emergency with respect to Lebanon that was first declared in Executive Order (EO) 13441 on August 1, 2007, to deal with the unusual and extraordinary threat

to the national security and foreign policy of the United States constituted by the actions of certain persons to undermine Lebanon's legitimate and democratically elected government and democratic institutions; contribute to the deliberate breakdown in the rule of law in Lebanon, including through politically motivated violence and intimidation; reassert Syrian control or contribute to Syrian interference in Lebanon; or infringe upon or undermine Lebanese sovereignty. The national emergency is being extended because certain ongoing activities, such as continuing arms transfers to Hizballah that include increasingly sophisticated weapons systems, serve to undermine Lebanese sovereignty, contribute to political and economic instability in Lebanon, and continue to constitute an unusual and extraordinary threat to the national security and foreign policy of the United States.

Presidential Executive Order allows additional review time before a decision to terminate US sanctions against Sudan can be made

On July 11, 2017, President Trump signed Executive Order 13804 allowing additional time to consider actions by the Government of Sudan before lifting US sanctions on Sudan ("July Executive Order").

As outlined in our previous [blog post](#), former President Obama had issued Executive Order 13761 on January 13, 2017, ("Sudan Executive Order"), which called for termination in six months the sanctions provisions of certain executive orders that serve as the basis for US sanctions targeting Sudan, implemented through the Sudanese Sanctions Regulations ("SSR"), provided that the Government of Sudan continued to sustain certain positive actions. Such "positive actions" include maintaining a cessation of hostilities in areas in Sudan, improving humanitarian access throughout Sudan, and maintaining cooperation with the United States on addressing regional conflicts and the threat of terrorism. As further described below, a general license by the Treasury Department's Office of Foreign Assets Control ("OFAC") was also issued at that time so that in the interim, US persons could engage in Sudan-related transactions in anticipation of the termination. The termination of such executive orders would have had the effect of not only eliminating the SSR, but also the de-listing of Specially Designated Nationals currently listed under the [SUDAN] tag on the [Specially Designated Nationals and Blocked Persons List](#). The provisions of the Sudan Executive Order that would have terminated US sanctions against Sudan were set to go into effect on July 12, 2017. The July Executive Order amends the Sudan Executive Order such that termination of the sanctions is now set to go into effect on October 12, 2017, extending the review period for an additional three months.

A [press statement](#) issued concurrently by the State Department further explained that the US Government will terminate sanctions on Sudan in three months if the Government of Sudan continues to sustain the positive actions that gave rise to the Sudan Executive Order, as outlined above. Importantly, the press statement clarifies that OFAC's [general license](#), which was issued in conjunction with the Sudan Executive Order to broadly authorize US persons to engage in most prohibited transactions under the SSR with respect to Sudan, remains in place. To that end, on July 12, 2017, OFAC also issued [FAQ 506](#), which reiterates that both the SSR and the general license will remain in place until the extended review period is complete.

White House, Congress say tax reform will not include the Border Adjustment Tax

On July 27, 2017, Speaker of the House of Representatives Paul Ryan, Senate Majority Leader Mitch McConnell, Treasury Secretary Steve Mnuchin, National Economic Council Director Gary Cohn, Senate Finance Committee Chairman Orrin Hatch, and House Ways and Means Committee Chairman Kevin Brady issued a joint statement on tax reform which stated in part:

... While we have debated the pro-growth benefits of border adjustability, we appreciate that there are many unknowns associated with it and have decided to set this policy aside in order to advance tax reform.

USTR announces first round of NAFTA negotiations

On July 19, 2017, United States Trade Representative Robert Lighthizer [announced](#) arrangements for the first round of negotiations for the *North American Free Trade Agreement* (NAFTA). The announcement said:

The first round of the negotiations between the United States, Canada and Mexico will take place in Washington, D.C. from August 16 – 20, 2017.

The negotiations immediately follows the 90-day consultation period with Congress and the public initiated on May 18, 2017. On that day, Ambassador Lighthizer notified Congress of President Trump's intent to renegotiate NAFTA to get a better deal for America's workers, farmers, businesses and manufacturers.

Ambassador Lighthizer also announced that John Melle, Assistant U.S. Trade Representative for the Western Hemisphere, will serve as Chief Negotiator for the NAFTA negotiations. In his role as Chief Negotiator, Melle will be responsible for the day-to-day negotiations at the staff level.

Since joining USTR in 1988, John Melle has held a number of positions covering Mexico, Canada, the Caribbean and Central America. As Assistant USTR for the Western Hemisphere, he is responsible for developing, coordinating and implementing the United States' trade policy for the region.

USTR releases summary of NAFTA renegotiation objectives

On July 17, 2017, the U.S. Trade Representative released a 17 page document entitled, [Summary of Objectives for the NAFTA Renegotiation](#). The publication of objectives is in accordance with section 105(a)(1)(D) of the *Bipartisan Congressional Trade Priorities and Accountability Act of 2015*. The specific objectives cover the following topics:

- Trade in Goods
- Sanitary and Phytosanitary Measures (SPS)
- Customs, Trade Facilitation, and Rules of Origin
- Technical Barriers to Trade (TBT)
- Good Regulatory Practices
- Trade in Services, Including Telecommunications and Financial Services
- Digital Trade in Goods and Services and Cross-Border Data Flows

- Investment
- Intellectual Property
- Transparency
- State-Owned and Controlled Enterprises
- Competition Policy
- Labor
- Environment
- Anti-Corruption
- Trade Remedies
- Government Procurement
- Small- and Medium-Sized Enterprises
- Energy
- Dispute Settlement
- General Provisions
- Currency

The broad categories above include topics such as: regulatory compatibility, transparency, increased food safety, open markets, improved cooperation, trade facilitation (including raising de minimis amounts for expedited clearance, advance rulings, automated processes for import and export, updating the rules of origin, and streamlining certification and verification processes.

In the area of digital trade the objectives include seeking commitments to not impose duties on digital products (e.g., software, music, video, e-books) and establishing rules to ensure that NAFTA countries do not impose measures that restrict cross-border data flows and do not require the use or installation of local computing facilities or mandate disclosure of source code.

In the trade remedies area, one of the objectives is the elimination of the Chapter 19 dispute settlement mechanism. In the general dispute settlement area, the objective is to establish a dispute settlement mechanism that is transparent, effective, timely, and in which panel determinations are based on the provisions of the Agreement and the submissions of the parties and are provided in a reasoned manner.

In the area of government procurement, the objectives include exclusion of sub-federal coverage (state and local governments) from the commitments being negotiated and keeping in place domestic preferential purchasing programs such as: preference programs for small businesses, women and minority owned businesses, service-disabled veterans, and distressed areas; “Buy America” requirements on Federal assistance to state and local projects, transportation services, food assistance, and farm support; and key Department of Defense procurement.

See the [USTR document](#) for the full list. Also, see our [Client Alert: NAFTA In Play – Nine Takeaways from the USTR Summary of Negotiating Objectives](#)

USTR issues FY 2018 TRQ allocations for raw cane sugar, refined and specialty sugar and sugar-containing products

On July 14, 2017, the Office of the U.S. Trade Representative (USTR) published in the *Federal Register* a [notice](#) providing country-by-country allocations of the Fiscal Year (FY) 2018 (October 1, 2017 through Sept. 30, 2018) in-quota quantity of the tariff-rate quotas for imported raw cane sugar, certain sugars, syrups and molasses (also known as refined sugar), specialty sugar, and sugar-containing products.

On June 30, 2017, the Secretary of Agriculture (Secretary) announced the sugar program provisions for FY2018. See 82 Fed. Reg. 29822. The Secretary announced an in-quota quantity of the TRQ for raw cane sugar for FY2018 of 1,117,195 metric tons raw value (MTRV) (conversion factor: 1 metric ton = 1.10231125 short tons), which is the minimum amount to which the United States is committed under the WTO Uruguay Round Agreements. USTR is allocating this quantity (1,117,195 MTRV) to the following countries in the amounts specified below: Country FY2018 Raw Cane Sugar allocations (MTRV)

Argentina	45,281	Gabon	7,258	Papua New Guinea	7,258
Australia	87,402	Guatemala	50,546	Paraguay	7,258
Barbados	7,371	Guyana	12,636	Peru	43,175
Belize	11,584	Haiti	7,258	Philippines	142,160
Bolivia	8,424	Honduras	10,530	South Africa	24,220
Brazil	152,691	India	8,424	St. Kitts & Nevis	7,258
Colombia	25,273	Jamaica	11,584	Swaziland	16,849
Congo	7,258	Madagascar	7,258	Taiwan	12,636
Costa Rica	15,796	Malawi	10,530	Thailand	14,743
Cote d'Ivoire	7,258	Mauritius	12,636	Trinidad & Tobago	7,371
Dominican Republic	185,335	Mexico	7,258	Uruguay	7,258
Ecuador	11,584	Mozambique	13,690	Zimbabwe	12,636
El Salvador	27,379	Nicaragua	22,114		
Fiji	9,477	Panama	30,538		

USTR notifies calls for special Joint Committee under KORUS FTA

On July 12, 2017, the Office of the U.S. Trade Representative (USTR) [announced](#) that USTR Robert Lighthizer, as directed by President Trump, formally notified the Republic of Korea that the United States is calling a special Joint Committee meeting under Art. 22.2 of the *U.S.-Korea Free Trade Agreement* (KORUS) to start the process of negotiating to remove barriers to U.S. trade and consider needed amendments to the agreement. The announcement said that the USTR acted in accord with the President's intention of reducing the trade deficit and giving Americans a better chance to succeed in global markets.

"President Trump continues to keep his promises to lower our trade deficit and negotiate better trade deals for American workers, farmers, ranchers, and businesses," said Ambassador Lighthizer. "Since KORUS went into effect, our trade deficit in goods with Korea has doubled from \$13.2 billion to \$27.6 billion, while U.S. goods exports have actually gone down. This is quite different from what the previous Administration sold to the American people when it urged approval of this Agreement. We can and must do better."

Ambassador Lighthizer has called for the special Joint Committee Meeting to take place in Washington, D.C., on a date next month to be agreed upon by the Parties. Throughout this process, USTR will work closely with Congress, the Department of Commerce, other relevant government agencies, and stakeholders to achieve the best outcome for the American people.

USTR seeks comments for AGOA annual review

On July 11, 2017, the Office of the United States Trade Representative (USTR) published in the *Federal Register* a [notice](#) [Docket No. USTR–2017–0005] announcing the initiation of review of the eligibility of the sub-Saharan African countries to receive the benefits of the *African Growth and Opportunity Act* (AGOA).

The AGOA Implementation Subcommittee of the Trade Policy Staff Committee (Subcommittee) is developing recommendations for the President on AGOA country eligibility for calendar year 2018. The Subcommittee is requesting written public comments for this review and will conduct a public hearing on this matter. The Subcommittee will consider the written comments, written testimony, and oral testimony in developing recommendations for the President. Comments received related to the child labor criteria may also be considered by the Secretary of Labor in the preparation of the Department of Labor's report on child labor as required under section 504 of the *Trade Act of 1974*.

The notice identifies the eligibility criteria under AGOA that must be considered under AGOA, and lists those sub-Saharan African countries that are currently eligible for the benefits of AGOA and those that were ineligible for such benefits in 2017. The deadline for filing requests to appear at the August 23, 2017 public hearing and for filing pre-hearing briefs, statements, or comments on sub-Saharan African countries' AGOA eligibility is August 4, 2017. AGOA Implementation Subcommittee of the TPSC will convene a public hearing on AGOA country eligibility on August 23, 2017. The deadline for filing post-hearing briefs, statements, or comments on this matter is August 30, 2017.

USTR seeks comments on CBERA and CBTPA

On July 11, 2017, the Office of the United States Trade Representative (USTR) published in the *Federal Register* a [notice](#) [Docket No. USTR–2017–0007] announcing that the Trade Policy Staff Committee (TPSC) is seeking comments on the operation of the *Caribbean Basin Economic Recovery Act* (CBERA), as amended by the *Caribbean Basin Trade Partnership Act* (CBTPA) (19 U.S.C. 2701 et seq.). Section 212(f) of the CBERA, as amended, requires USTR to submit a report to Congress regarding the operation of the CBERA and CBTPA (together commonly referred to as the Caribbean Basin Initiative, or CBI) on or before December 31, 2017. The TPSC invites written comments concerning the operation of the CBI, including the performance of each CBERA and CBTPA beneficiary country under the criteria described in sections 212(b), 212(c), and 213(b)(5)(B) of CBERA, as amended. The TPSC will use this information to prepare the report to Congress on the operation of the program. The TPSC must receive your written comment by September 15, 2017.

USTR publishes results of 2016/2017 GSP review and announces initiation of country practice review of Bolivia

On July 10, 2017, the Office of the United States Trade Representative (USTR) published in the *Federal Register* a [notice](#) [Docket No. USTR–2017–0009] announcing the results of the 2016/2017 Annual *Generalized System of Preferences* (GSP) Review with respect to: Products considered for addition to the list of eligible products for GSP; products considered for removal from the list of eligible products for certain beneficiary countries; decisions related to competitive need limitations (CNLs), including petitions for waivers of CNLs and requests for re-designations of products previously excluded from GSP eligibility for certain countries. USTR also is announcing the initiation of a country practice review regarding child labor in the Plurinational State of Bolivia (Bolivia) including the schedule for public comments and a public hearing.

The GSP Subcommittee of the Trade Policy Staff Committee (TPSC) will convene a public hearing on the GSP country practice review of Bolivia in Rooms 1 and 2, 1724 F Street NW., Washington DC 20508, beginning at 10:00 a.m. September 26, 2017.

The deadline for submission of comments, pre-hearing briefs and requests to appear at the September 26, 2017, public hearing is September 5, 2017 at midnight EST. The deadline for submission of post-hearing briefs is October 17, 2017 at midnight EST.

ITC releases “The Year in Trade 2016”

On July 25, 2017, the U.S. International Trade Commission (ITC) released [The Year in Trade 2016](#), its annual overview of developments regarding the administration of U.S. trade laws and trade agreements.

The Year in Trade (USITC Publication 4711, July 2017) is one of the government's most comprehensive reports available regarding activities related to U.S. trade policies, agreements, and trade laws. This report is the 68th in a series of annual reports submitted to the U.S. Congress under section 163(c) of the *Trade Act of 1974* (19 U.S.C. 2213(c)) and its predecessor legislation.

The publication reviews U.S. international trade laws and actions under these laws, activities of the World Trade Organization (WTO), and developments regarding U.S. free trade agreements (FTAs), FTA negotiations, and U.S. bilateral trade relations with major trading partners in 2016.

The Year in Trade 2016 covers:

- all U.S. antidumping, countervailing duty, safeguard, intellectual property rights infringement, and section 301 cases active in 2016. In addition, the 2016 report covers the operation of U.S. trade preference programs, including the U.S. Generalized System of Preferences, the African Growth and Opportunity Act, and the Caribbean Basin Economic Recovery Act, including initiatives for Haiti;

- WTO dispute settlement decisions and other significant activities in the WTO, the Organisation for Economic Co-operation and Development, and the Asia-Pacific Economic Cooperation forum;

- negotiations on an Environmental Goods Agreement, a Trade in Services Agreement, and the Transatlantic Trade and Investment Partnership, and developments regarding the North American Free Trade Agreement and other U.S. FTAs already in effect; and

bilateral trade issues with selected major U.S. trading partners—the European Union, China, Canada, Mexico, Japan, South Korea, India, Taiwan, and Brazil—as well as Cuba.

The report also provides an overview of U.S. trade in goods and services during 2016. Statistical tables highlight U.S. bilateral trade with major trading partners and trade under U.S. trade preference programs and free trade agreements.

An interactive, web-based version of *The Year in Trade 2016* will be released this Fall. A separate announcement will be made when that version is released.

Other reports in this series dating back to 1948 can also be found on the ITC website at https://www.usitc.gov/research_and_analysis/year_in_trade.htm.

ITC investigations

The ITC initiated (I), terminated (T), requested information or comments (RFC), issued a report (R), or scheduled a hearing (H) regarding the following investigations (other than 337 and antidumping, countervailing duty or safeguards) this month: (*Click on the investigation title to obtain details from the Federal Register notice or ITC Press Release*)

Investigation. No. and title	Requested by:
Inv. No. 163-1 <i>The Year in Trade 2016</i> (USITC Pub. 4711) (R)	Statutory

U.S., Mexico sign final amendments to Sugar Suspension Agreements

On July 3, 2017, the U.S. Department of Commerce [announced](#) that Secretary of Commerce Wilbur Ross, and Juan Carlos Baker Pineda, Subsecretario de Comercio Exterior, Secretaría de Economía, have signed a finalized amendment to the *Countervailing Duty Suspension Agreement on Sugar from Mexico*. Likewise, Secretary Ross and Juan Cortina Gallardo, a representative of the Mexican Sugar Industry, signed a finalized amendment to the *Antidumping Duty Suspension Agreement on Sugar from Mexico*. The amendments will be published in the *Federal Register*.

According to the announcement, all major stakeholders have endorsed this deal brokered by Secretary Ross and Secretary Ildefonso Guajardo. The amendments will ensure that the sugar suspension agreements continue to promote stability in the U.S sugar market, in coordination with USDA's sugar program.

- [Fact sheet](#)

CBP makes technical corrections to its regulations

On July 28, 2017, U.S. Customs and Border Protection (CBP) published in the *Federal Register* a [final rule](#) [CBP Dec. 17-08] making technical corrections. CBP periodically reviews its regulations to ensure that they are current, correct, and consistent. Through this review process, CBP discovered some discrepancies. This document amends certain sections of title 19 of the Code of Federal Regulations to remedy these discrepancies.

One of the revisions involves revising references to the Commerce Department's antidumping and countervailing duty regulations. Another corrects a reference to the NAFTA Certificate of Origin.

CBP extends Air Cargo Advance Screening (ACAS) pilot program

On July 24, 2017, CBP published in the *Federal Register* a [general notice](#) that announces that CBP is extending the Air Cargo Advance Screening (ACAS) pilot program for an additional year. The ACAS pilot is a voluntary test in which participants submit a subset of required advance air cargo data to CBP at the earliest point practicable prior to loading of the cargo onto the aircraft destined to or transiting through the United States. On October 24, 2012, CBP published a notice in the *Federal Register* 77 Fed. Reg. 65006, corrected in 77 Fed. Reg. 65395) that announced the formalization and expansion of the ACAS pilot program that would run for six months. CBP subsequently published several notices extending the pilot period and/or reopening the application period to new participants for limited periods. The most recent notice extended the pilot period through July 26, 2017.

CBP is extending the ACAS pilot program through July 26, 2018. Comments concerning any aspect of the announced test may be submitted at any time during the test period.

CBP corrects proposal to expand Savannah port limits

On July 17, 2017, CBP published in the *Federal Register* a [correction](#) to the [proposal](#) [Docket No. USCBP–2017–0017] published in the *Federal Register* on July 3, 2017, to extend the port limits of Savannah, GA.

CBP proposes procedures to adjust Customs COBRA user fees to reflect inflation

On July 17, 2017, CBP published in the *Federal Register* a [notice of proposed rulemaking](#) [USCBP–2017–0025] to amend the U.S. Customs and Border Protection (CBP) regulations to reflect that customs user fees and limitations established by the *Consolidated Omnibus Budget Reconciliation Act* (COBRA) will be adjusted for inflation in accordance with the *Fixing America's Surface Transportation Act* (FAST Act, Pub. L. 114–94)). Comments must be received on or before August 16, 2017.

CBP proposes to amend the 19 C.F.R. 24.22 paragraphs shown below to explain that the specific fee amounts and annual fee limitations (set forth in Table 1 below) are subject to adjustment in accordance with the terms in a new paragraph (k). (19 C.F.R. 24.22). The new paragraph (k) will set forth the methodology for determining whether and by what amount the customs COBRA user fees should be adjusted pursuant to the FAST Act. Table 1 below lists both the user fees and corresponding limitations currently set forth in section 24.22. (19 CFR 24.22). CBP proposes to add this table to the regulations as Appendix A to part 24. In addition, CBP is amending several other "fee" paragraphs.

TABLE 1—CUSTOMS COBRA USER FEES AND LIMITATIONS IN 19 C.F.R. 24.22

19 U.S.C. 58c	19 CFR 24.22	Customs COBRA user fee/limitation	FY14 Base fee/limitation (subject to adjustment in accordance with the FAST Act)
(a)(1)	(b)(1)(i)	Commercial Vessel Arrival Fee	\$ 437.00
(b)(5)(A)	(b)(1)(ii)	Limitation: Calendar Year Maximum for Commercial Vessel Arrival Fees	5,955.00
(a)(8)	(b)(2)(i)	Barges and Other Bulk Carriers Arrival Fee	110.00
(b)(6)	(b)(2)(ii)	Limitation: Calendar Year Maximum for Barges and Other Bulk Carriers Arrival Fees	1,500.00
(a)(2)	(c)(1)	Commercial Truck Arrival Fee	5.50
(b)(2)	(c)(2) and (3)	Limitation: Commercial Truck Calendar Year Prepayment Fee	100.00
(a)(3)	(d)(1)	Railroad Car Arrival Fee	8.25
(b)(3)	(d)(2) and (3)	Limitation: Railroad Car Calendar Year Prepayment Fee	100.00
(a)(4)	(e)(1) and (2)	Fee and Limitation: Private Vessel or Private Aircraft First Arrival/Calendar Year Prepayment Fee	27.50
(a)(6)	(f)	Dutiable Mail Fee	5.50
(a)(5)(A)	(g)(1)(i)	Commercial Vessel or Commercial Aircraft Passenger Arrival Fee	5.50
(a)(5)(B)	(g)(1)(ii)	Commercial Vessel Passenger Arrival Fee (from Canada, Mexico, one of the territories and possessions of the United States, or one of the adjacent islands)	1.93
(a)(7)	(h)	Customs Broker Permit User Fee	138.00

CBP extends import restrictions on archaeological objects and ecclesiastical and ritual ethnological materials from Cyprus

On July 14, 2017, CBP published in the *Federal Register* a [final rule](#) [CBP Dec. 17-07] that amends the CBP regulations to reflect an extension of import restrictions on Pre-Classical and Classical archaeological objects, and Byzantine and post-Byzantine ecclesiastical and ritual ethnological materials from Cyprus. The restrictions, which were originally imposed by Treasury Decision 02-37, and last extended by CBP Dec. 12-13, are due to expire on July 16, 2017. The Assistant Secretary for Educational and Cultural Affairs, United States Department of State, has determined that conditions continue to warrant the imposition of import restrictions. Accordingly, these import restrictions will remain in effect for an additional five years, and the CBP regulations are being amended to reflect this extension through July 16, 2022.

These restrictions are being extended pursuant to determinations of the United States Department of State made under the terms of the *Convention on Cultural Property Implementation Act* in accordance with the *United Nations Educational, Scientific and Cultural Organization (UNESCO) Convention on the Means of Prohibiting and Preventing the Illicit Import, Export and Transfer of Ownership of Cultural Property*. CBP Dec. 12-13 contains the Amended Designated List of all archaeological objects and Byzantine and Post-Byzantine ecclesiastical and ritual ethnological materials from Cyprus, to which the restrictions apply. The rule is effective July 16, 2017.

CBP issues regulations for Electronic Information for Exports

On July 13, 2017, CBP published in the *Federal Register* a [final rule](#) [CBP Dec. 17-06] amending the CBP regulations regarding the requirements to provide data for certain exported cargo to conform to current requirements. Various CBP regulations regarding exported cargo (19 C.F.R. parts 4, 10, 18, 113, 122, 123, 141, 191 and 192) refer to outdated regulations or requirements of the U.S. Census Bureau, including the requirement to submit a paper Shipper's Export Declaration (SED). The *U.S. Census Bureau's Foreign Trade Regulations* (FTR) have been amended to eliminate the SED and to require that the information that was previously provided on the paper SED be filed electronically as an Electronic Export Information (EEI) through the Automated Export System (AES). This rule amends the CBP regulations to incorporate the current requirements. The rule also makes related conforming changes as well as non-substantive editorial and nomenclature changes. These changes include updated U.S. Code citations, current agency names, revised C.F.R. citations and technical corrections.

The final rule was effective on publication.

CBP publishes quarterly IRS interest rates

On July 12, 2017, CBP published in the *Federal Register* a [general notice](#) that advises the public that the quarterly Internal Revenue Service interest rates used to calculate interest on overdue accounts (underpayments) and refunds (overpayments) of customs duties will remain the same from the previous quarter. For the calendar quarter beginning July 1, 2017, the interest rates for overpayments will be 3 percent for corporations and 4 percent for non-corporations, and the interest rate for underpayments will be 4 percent for both corporations and non-corporations.

CBP proposes to extend Savannah port limits

On July 3, 2017, CBP published in the *Federal Register* a [notice of proposed rulemaking](#) [Docket No. USCBP-2017-0017] to extend the geographical limits of the port of entry of Savannah, Georgia. The proposed extension will make the boundaries more easily identifiable to the public and will allow for uniform and continuous service to the extended area of Savannah, Georgia. The proposed change is part of CBP's continuing program to use its personnel, facilities, and resources more efficiently and to provide better service to carriers, importers, and the general public. For immigration purposes, Savannah, Georgia port of entry is classified as a Class A port in District 26 under 8 C.F.R. 100.4(a). For customs purposes, CBP regulations list designated CBP ports of entry and the limits of each port in 19 C.F.R. 101.3(b)(1).

CBP is proposing to amend 19 C.F.R. 101.3(b)(1) to extend the boundaries of the port of entry of Savannah, Georgia, to include the majority of Chatham County, Georgia, as well as a small portion of Jasper County, South Carolina. The extension of the boundaries will include all of Savannah-Hilton Head Airport, the distribution centers and cold storage agricultural facilities, as well as the site of the proposed replacement Federal Inspection Service facility for arriving international travelers, and any other projected new facilities. However, the proposed change in the boundaries of the port of Savannah, Georgia, will not result in a change in the service that is provided to the public by the port and will not require a change in the staffing or workload at the port.

Comments must be received on or before September 1, 2017.

Miscellaneous CBP Federal Register documents

The following documents not discussed above were published by CBP in the *Federal Register*. [Note that multiple listings of approved gaugers and laboratories reflects different locations and/or products.]

F.R. Date	Subject
07-14-17	Agency Information Collection Activities: CBP Regulations Pertaining to Customs Brokers [OMB No. 1651-0034] (N) [CBP Forms 3124 and 3124E]
	Agency Information Collection Activities: Cost Submission [OMB No. 1651-0028] (N) [CBP Form 247]
	Agency Information Collection Activities: Documents Required Aboard Private Aircraft [OMB No. 1651-0058] (N)

CBP announces expansion of Global Entry to Indian citizens

On July 3, 2017, CBP [announced](#) the expansion of [Global Entry](#) eligibility to citizens of India. Global Entry, a CBP Trusted Traveler Program, allows for expedited clearance of pre-approved, low-risk travelers. Indian citizens can begin applying for Global Entry through the [Global Online Enrollment System \(GOES\)](#) website. India becomes the 11th country overall whose citizens are eligible to enroll in Global Entry. U.S. citizens, U.S. nationals and U.S. Lawful Permanent Residents may apply for Global Entry as well as citizens of [certain countries](#) with which CBP has trusted traveler arrangements, including Argentina, Colombia, Germany, Mexico, the Netherlands, Panama, the Republic of Korea, Singapore,

Switzerland, the United Kingdom and now India. Canadian citizens and residents enrolled in NEXUS may also use the Global Entry kiosks.

Global Entry is currently available at 53 U.S. airports and 15 Preclearance locations. It streamlines the international arrivals process at airports for trusted travelers. The more than 4 million Global Entry members bypass traditional CBP inspection lines and use an automated kiosk to complete their admission to the United States. As an added benefit, Global Entry members are also eligible to participate in the TSA Pre✓™ expedited screening program.

CBP issues final determinations in procurement cases

CBP has published in the *Federal Register* the following determinations concerning the country of origin of merchandise for purposes of US Government procurement under the *Trade Agreements Act*. A copy of the final determination may be reviewed by clicking on the ruling number. Any party-at-interest may seek judicial review of the final determination within 30 days of the date of publication in the *Federal Register*.

F.R. Date	Ruling Reference (Date Issued) and Product	Country of Origin

	Foreign-Trade Zone 231 – Stockton, California - Application for Subzone Expansion - 5.11, Inc., Modesto and Lathrop, California [S-102-2017]
07-07-17	Foreign-Trade Zone 106 – Oklahoma City, Oklahoma - Notification of Proposed Production Activity - Eastman Kodak Company (Printing Flexographic Plates) Weatherford, Oklahoma [B-46-2017]
07-12-17	Foreign-Trade Zone 7— Mayaguez, Puerto Rico; Authorization of Production Activity; Bristol-Myers Squibb Holdings Pharma, Ltd. (Pharmaceuticals); Manatí, Puerto Rico [B-16-2017]
	Foreign-Trade Zone 52-Suffolk County, New York; Notification of Proposed Production Activity; Estee Lauder Inc. (Skin Care, Fragrance, and Cosmetic Products), Melville, New York [B-47-2017]
07-14-17	Foreign-Trade Zone 163 -- Ponce, Puerto Rico - Application for Subzone, LT Autos, LLC, Amendment of Application [S-11-2017]
	Foreign-Trade Zone 168 – Dallas/Fort Worth, Texas Area - Application for Subzone, R.W. Smith & Co/TriMark USA, LLC, Lewisville, Texas [S-105-2017]
07-24-17	Foreign-Trade Zone (FTZ) 141-Monroe County, New York; Authorization of Production Activity; Xerox Corporation; Subzone 141B; (Xerographic Bulk Toner and Toner Cartridges); Webster, New York [B-18-2017]
	Foreign-Trade Zone 132-Coos Bay, Oregon Site Renumbering Notice
07-25-17	Foreign-Trade Zone 18 – San Jose, California - Application for Subzone Expansion - Lam Research Corporation, Livermore, California [S-110-2017]

FinCEN proposes special measure against Bank of Dandong

On July 7, 2017, the Financial Crimes Enforcement Network (FinCEN) published in the *Federal Register* a [notice of proposed rulemaking](#) (NPRM) [Docket Number FinCEN–2017–0010] pursuant to section 311 of the *USA PATRIOT Act*, to prohibit the opening or maintaining of a correspondent account in the United States for, or on behalf of, Bank of Dandong. The NPRM sets forth FinCEN's finding that Bank of Dandong, a commercial bank located in Dandong, China, is a financial institution of primary money laundering concern pursuant to Section 311, and 2. FinCEN's proposal of a prohibition under the fifth special measure on the opening or maintaining in the United States of a correspondent account for, or on behalf of, Bank of Dandong. As described more fully in the *Federal Register* notice FinCEN finds that Bank of Dandong is a financial institution of primary money laundering concern because it serves as a conduit for North Korea to access the U.S. and international financial systems, including by facilitating millions of dollars of transactions for companies involved in North Korea's WMD and ballistic missile programs. Having made such a finding and having performed the requisite consultations set forth in the statute, FinCEN proposes a prohibition on covered U.S. financial institutions from opening or maintaining a correspondent account in the United States for, or on behalf of, Bank of Dandong.

Written comments on the notice of proposed rulemaking must be submitted on or before September 5, 2017.

BIS revises EAR based on 2016 Missile Technology Control Regime Plenary Agreements

On July 7, 2017, the Bureau of Industry and Security (BIS) published in the *Federal Register* a [final rule](#) [Docket No. 170202139-7139-01] amending the *Export Administration Regulations* (EAR) to reflect changes to the Missile Technology Control Regime (MTCR) Annex that were agreed to by MTCR member countries at the October 2016 Plenary in Busan, South Korea, and the March 2016 Technical Experts Meeting (TEM) in Luxembourg City, Luxembourg. The final rule revises thirteen Export Control Classification Numbers (ECCNs), adds one ECCN, revises two EAR defined terms (including making other EAR conforming changes for the use of these two terms) and makes conforming EAR changes where needed to implement the changes that were agreed to at the meetings and to better align the missile technology (MT) controls on the Commerce Control List (CCL) with the MTCR Annex. The amendments were effective on publication.

Restrictive measures and additions to OFAC, State BIS blocking orders, designations, sanctions and entity lists

During the past month, the following notices adding, removing or continuing persons (including entities) to/from restrictive measures lists were published in the *Federal Register* by the Office of Foreign Assets Control (OFAC) or by the State Department (State) or the Bureau of Industry and Security (BIS):

F.R. Date	Applicable orders
07-21-17	OFAC: Notice of OFAC Sanctions Actions (N)
07-26-17	OFAC: Sanctions Action pursuant to an Executive order issued on September 23, 2001, titled "Blocking Property and Prohibiting Transactions with Persons Who Commit, Threaten to Commit, or Support Terrorism" (N) [1 individual]

F.R. Date	Applicable orders
	State: In the Matter of the Amendment of the Designation of Yarmouk Martyrs Brigade (and other aliases) as a Specially Designated Global Terrorist [Public Notice: 10068] (N)
07-27-17	OFAC: Notice of OFAC Sanctions Actions (N) [2 individuals, 1 entity]

Orders denying export privileges

During the past month, the following orders were published:

F.R. Date	Subject
07-01-17	Order Renewing Order Temporarily Denying Export Privileges (Mahan Airways and others) (N)
	Order Denying Export Privileges (In re: Manuel Morales) (N)
	Order Denying Export Privileges (In re: Edwin Navarro Makasiar)
	Order Denying Export Privileges (In re: Jose Abraham Benavides-Cira)

Treasury, Commerce, Homeland Security and State meetings and notices related to trade

AGENCIES: BIS = BUREAU OF INDUSTRY AND SECURITY; FINCEN = FINANCIAL CRIMES ENFORCEMENT NETWORK; ITA: INTERNATIONAL TRADE ADMINISTRATION; NIST- NATIONAL INSTITUTE OF STANDARDS AND TECHNOLOGY; OFAC= OFFICE OF FOREIGN ASSETS CONTROL; DHS= HOMELAND SECURITY; STATE=DEPARTMENT OF STATE.

[Note: Meetings which occur before the scheduled distribution of this Update may not be listed.]

F.R. Date	Subject
07-01-17	BIS: Information Systems Technical Advisory Committee; Notice of Partially Closed Meeting (N/H) [July 26-27, 2017]
	BIS: Sensors and Instrumentation Technical Advisory Committee; Notice of Partially Closed Meeting (N/H) [July 25, 2017]
	BIS: Materials Processing Equipment Technical Advisory Committee; Notice of Partially Closed Meeting (N/H) [August 8, 2017]
	BIS: Notice of Partially Closed Meeting of the Materials Technical Advisory Committee (N/H) [July 20, 2017]
	BIS: Notice of Partially Closed Meeting of the Transportation and Related Equipment Technical Advisory Committee (N/H) [Sept. 6, 2017]
	BIS: Emerging Technology and Research Advisory Committee; Notice of Partially Closed Meeting (N/H) [July 20-21, 2017]
	State: Cultural Property Advisory Committee; Notice of Meeting [Public Notice 10052] (N/H) [July 19-20, 2017; Request by Government of Libya seeking import restrictions on archaeological and ethnological material]
07-10-17	ITA: User Fees for Export and Investment Promotion Services/Events [Docket No.: 161020988-6988-02] (N)
07-11-17	State: Notice of Issuance of a Presidential Permit to NuStar Logistics, L.P. [Public Notice: 10053] (Operation of "Dos Laredos pipeline facilities")
	State: Notice of Issuance of a Presidential Permit to NuStar Logistics, L.P. [Public Notice: 10054] (Construction of "New Burgos pipeline facilities")
07-14-17	State: Reducing Regulation and Public Burden, and Controlling Cost [Public Notice: 10057] (RFC)
07-21-17	State: Defense Trade Advisory Group; Notice of Open Meeting [Public Notice: 10064] (N/H) [Sept. 8, 2017]

FTC and CPSC Federal Register documents

The following Federal Trade Commission (FTC) and Consumer Product Safety Commission (CPSC) documents which may be of interest to importers were published *Federal Register* during the past month:

F.R. Date	Subject
07-05-17	CPSC: Safety Standard Addressing Blade-Contact Injuries on Table Saws; Notice of Opportunity for Oral Presentation of Comments [Docket No. CPSC–2011–0074] (PR/RFC)

FDA related low value shipments updated

The US Food & Drug Administration (FDA or the Agency) is updating previously issued information to clarify FDA expectations for the submission of shipments qualifying under Section 321 of the *Tariff Act of 1930* containing FDA-regulated articles; i.e. those valued at \$800 or less (“Section 321” or “de minimis” shipments). The new guidance is contained in CBP’s [CSMS# 17-000388](#) dated July 3, 2017.

On December 15, 1994, FDA identified five categories of regulated products which could be released by CBP without notification to FDA for the purposes of determining entry admissibility, if they were valued at or below the then de minimis level of \$200 (see [CSMS #94-001260](#), “FDA LOW VALUE SHIPMENTS”).

On March 9, 2016, CBP informed stakeholders of the de minimis value increase from \$200 to \$800 in [CSMS #16-000181](#) (effective March, 10, 2016). This program change was implemented based on Section 321 validations.

Although the de minimis value has changed, FDA has not previously updated [CSMS #94-001260](#). FDA revised the [Regulatory Procedures Manual \(RPM\) Chapter 9, section 1](#) to reflect the new de minimis value of \$800; however, based on conversations with stakeholders, FDA reporting requirements for de minimis shipments were unclear given FDA’s legacy CSMS messages on such low value shipments.

FDA is providing notification that [CSMS #94-001260](#) applies to the same five product categories valued at or below the current de minimis level: for those same five product categories, a release may be issued without notification to FDA for the purposes of determining entry admissibility under section 801(a) of the *Federal Food, Drug & Cosmetic Act* (the Act), if the shipment is valued at or below the current de minimis level (currently \$800). Those five product categories are:

- Cosmetics;
- Dinnerware (including eating and/or cooking utensils);
- Radiation emitting, non-medical devices (e.g. microwaves, televisions, CD players, etc.);
- Biological samples for laboratory testing; and,
- Food, excluding ackees, puffer fish, raw clams, raw oysters, raw mussels, and foods packed in air tight containers intended to be stored at room temperature.

The FDA is rescinding [CSMS #95-000090](#) (issued January 27, 1995) because the instructions therein for electronic declarations are no longer applicable due to implementation of ACE.

The 801(m) prior notice requirements must *continue to be met* on all food and feed shipments regardless of value or quantity. Unless otherwise exempt from the prior notice requirements for one of the indicated reasons under [21 C.F.R. 1.277\(b\)](#), there are *no exemptions* based on a de minimis value or quantity of food.

FDA will continue to work on an updated low value strategy outlining which FDA-regulated products require notification to the Agency for determination of admissibility, regardless of the value of the shipment upon entry.

FDA issued the updated CSMS message as part of its continued outreach efforts to assist the importing community in realizing the benefits of the Automated Commercial Environment (ACE).

Questions related to the FDA reporting requirements for de minimis shipments may be submitted to FDA's Division of Import Operations at (301) 796-0356 or FDImportsInquiry@fda.hhs.gov.

APHIS updates list of approved Chinese wooden handicraft manufacturers

APHIS has updated the [list of approved wooden handicraft manufacturers](#) in China on its [wooden handicrafts web page](#). The page also provides resources for business and individuals who import wooded handicrafts from China, and answers frequently asked questions including:

- How to meet APHIS' regulatory requirements
- Types of wood products that APHIS considers a handicraft
- The criteria manufacturers must meet to be added to the approved manufacturer list
- Links to programs related to the import of wood and wood products

USDA increases FY 2017 raw sugar TRQ

On July 25, 2017, the Office of the Secretary of the U.S. Department of Agriculture (USDA) published in the *Federal Register* a [notice](#) of an increase in the fiscal year (FY) 2017 raw cane sugar tariff-rate quota (TRQ) of 244,690 metric tons raw value (MTRV) [Conversion factor: 1 metric ton = 1.10231125 short tons]. The Office of the U.S. Trade Representative (USTR) will allocate this increase among supplying countries and customs areas.

USDA also announced that all sugar entering the United States under the FY 2017 raw sugar TRQ will be permitted to enter U.S. Customs territory through October 31, 2017, a month later than the usual last entry date. Additional U.S. Note 5(a)(iv) to Chapter 17 of the Harmonized Tariff Schedule of the U.S. authorizes the Secretary of Agriculture to permit sugar allocated under a given quota year to be entered in previous or subsequent quota year. This action is being taken after a determination that additional supplies of raw cane sugar are required in the U.S. market. USDA will closely monitor stocks, consumption, imports and all sugar market and program variables on an ongoing basis, and may make further program adjustments during FY 2017 if needed.

APHIS seeks comments for draft international standards and specifications

On July 10, 2017, the Animal and Plant Health Inspection Service (APHIS) [announced](#) that The International Plant Protection Convention (IPPC) recently opened 3 draft specification documents and 13 draft International Standards for Phytosanitary Measures (ISPMs) for 2017 Consultation (review and commenting). APHIS is inviting stakeholders to participate in 2017 Consultation on these documents by the due dates listed below.

Draft Specifications

Background information may be found on the [IPPC Consultations for Draft Specifications](#) page. Comments are due to APHIS by August 11, 2017.

- [Focused revision of ISPM 12](#)
- [Audit in the phytosanitary context](#)

- [Supplement to ISPM 11 “Guidance on the concept of the likelihood of establishment component of a pest risk analysis for quarantine pests”](#)

Draft Standards

Background information may be found on the [IPPC Consultations for Draft ISPMs](#) page. Comments are due to APHIS by August 25, 2017.

For First Consultation:

- [2017 Amendments to ISPM 5: Glossary of phytosanitary terms](#)
- [International movement of cut flowers and foliage](#)
- [Requirements for the use of fumigation as a phytosanitary measure](#)
- [Diagnostic protocols: Bactrocera dorsalis complex](#)
- [Diagnostic protocols: Conotrachelus nenuphar](#)
- [Diagnostic protocols: Ips spp](#)
- [Diagnostic protocols: Xylella fastidiosa](#)
- [Diagnostic protocols: Puccinia psidii](#)
- [Revision of Diagnostic Protocol: Plus pox virus](#)

For Second Consultation:

- [Revision of ISPM 6: Surveillance](#)
- [Requirements for the use of temperature treatments as a phytosanitary measure](#)
- [Draft revision of Annexes 1 & 2 to ISPM15](#)
- [Draft 2015 and 2016 amendments to ISPM 5 Glossary of phytosanitary terms](#)

Instructions for Submitting Comments

To submit comments, follow the instructions on the [APHIS website](#). Comments should fall into one of three categories: substantial, technical, or editorial.

FSIS provides guidance for importing meat, poultry, and egg products into the United States

On July 7, 2017, the Food Safety and Inspection Service (FSIS) published in the *Federal Register* a [notice](#) [Docket No. FSIS-2017-0020] announcing the availability of and requesting comment on guidance for importing meat, poultry, and egg products into the United States. This guidance is intended to help U.S. importers, customs brokers, official import inspection establishments, egg products plants, and other interested parties understand and comply with FSIS import requirements. A downloadable version of the guidance is available [to view and print here](#). No hard copies of the compliance guideline have been published.

Comments are due on or before September 5, 2017.

FSIS to require all imported Siluriformes fish to be inspected

On July 3, 2017, the Food Safety and Inspection Service (FSIS) published in the *Federal Register* a [notification of regulatory enforcement](#) [Docket No. FSIS–2017–0024] announcing that starting August 2, 2017, all shipments of imported Siluriformes fish and fish products entering the United States must be presented at an Official Import Inspection Establishment for reinspection by FSIS personnel. FSIS will be enforcing FSIS the regulations in 9 C.F.R. part 557 (9 C.F.R. 557.1–557.8, 557.10–557.19 and 557.24–557.26).

The final rule was effective on March 1, 2016, but provided an 18-month transitional period until September 1, 2017, to ensure an orderly transition from Food and Drug Administration (FDA) regulatory oversight to the FSIS mandatory fish inspection program. During the transitional period, the Agency is exercising broad discretion in enforcing the new regulatory requirements, except when product is determined to be adulterated (e.g., the product contains a violative residue or is contaminated) or misbranded (e.g., the product is missing a label).

The final rule stated that during the transitional period, imported fish and fish products would be reinspected and subjected to species and residue testing on at least a quarterly basis for each foreign establishment eligible to export fish to the U.S. Further, as discussed in the preamble of the final rule, at the end of the 18-month transitional period, all imported Siluriformes fish and fish product shipments would be reinspected, just as all imported meat and poultry products are reinspected (80 Fed. Reg. 75608). FSIS began selecting shipments of imported Siluriformes for reinspection and residue testing on April 15, 2016.

To apply for import reinspection, applicants, typically the Importer of Record, must submit a paper or an electronic inspection application form (FSIS Form 9540–1) to FSIS in advance of the shipment's arrival, but no later than when the entry is filed with the U.S. Customs and Border Protection (CBP) (9 CFR 557.5). The applicant must identify, on the application, the official import inspection establishment where reinspection will occur. The paper import inspection application is available [on line here](#).

FSIS will be posting reinspection guidance materials on its [Siluriformes Web page](#).

APHIS and other USDA notices issued

During the past month, the Animal and Plant Health Inspection Service (APHIS) and other US Department of Agriculture (USDA) agencies issued the following *Federal Register* notices during the past month which may be of interest to international traders. [USDA=Office of the Secretary, FAS=Foreign Agricultural Service, AMS=Agricultural Marketing Service, FSIS=Food Safety and Inspection Service, GIPSA= Grain Inspection, Packers and Stockyards Administration]:

FCC to modernize requirements and eliminate Form 740 at entry

On July 13, 2017, the Federal Communications Commission (FCC) [announced](#) that it was streamlining and modernizing the authorization requirements for most radiofrequency devices, such as cell phones or TV receivers, that are imported, marketed, or operated within the United States. This decision continues the FCC's ongoing efforts to provide greater flexibility and reduce the burdens associated with certain equipment authorization rules.

The FCC's action allows required labeling information to be provided to the consumer via the device's electronic display, providing an alternative to the requirement for etching or permanent labels on the exterior of devices. The FCC said manufacturers expect the use of electronic labelling rather than permanent physical labels to result in a measurable reduction in costs. This action is consistent with the objectives of the *Enhance Labeling, Accessing, and Branding of Electronic Licenses Act of 2014* or the E-LABEL Act.

The FCC is also eliminating the requirement to file with U.S. Customs and Border Protection (CBP) the FCC Form 740 – the FCC's unique import declaration for RF devices brought into the United States. Because of the exponential increase in imported RF devices, this filing requirement has become an unwieldy tool for the FCC and it has placed an increasingly substantial burden on importers. At the same time, the CBP's revised database and the increasing availability of product information on the Internet and through other means have reduced the practical need for the form.

The FCC is also combining two separate self-approval procedures into one, which will help reduce confusion as to which process applies to any given product. The new combined process is called the Suppliers Declaration of Conformity and will allow device manufacturers to bring products to market in a more efficient manner while continuing to ensure compliance with the equipment authorization program.

Lastly, the First Report and Order (FCC 17-93) updates specific measurement procedures and clarifies certain standards that may be relied on for demonstrating that equipment complies with the rules. These changes allow the FCC to better and more quickly respond to changes in technology and international standards, and will aid the development of and speed the approval for new RF devices.

Additional Federal Register documents

The following [Federal Register](#) documents which may be of interest to international traders were published during the past month by various Federal agencies:

F.R. Date	Subject
07-05-17	Environmental Protection Agency (EPA): Certain New Chemicals or Significant New Uses; Statements of Findings for March 2017 [EPA-HQ-OPPT-2017-0141; FRL-9962-66] (N)

US, Mexico amend sugar ADD and CVD suspension agreements

On July 11, 2017, the International Trade Administration, Commerce, published in the *Federal Register* a [document](#) [C–201–846] announcing that the Department of Commerce and a representative of the Government of Mexico have signed an amendment to the *Agreement Suspending the Countervailing Duty Investigation on Sugar from Mexico* (CVD Suspension Agreement). The amendment to the CVD Suspension Agreement modifies the definitions for sugar from Mexico, modifies the restrictions of the volume of direct or indirect exports to the United States of sugar from all Mexican producers/ exporters, and provides for enhanced monitoring and enforcement mechanisms.

On the same date, the Department of Commerce, published in the *Federal Register* a [document](#) [A–201–845] announcing that the Department of Commerce and a representative of the signatory sugar producers/exporters accounting for substantially all imports of sugar from Mexico have signed an amendment to the *Agreement Suspending the Antidumping Duty Investigation on Sugar from Mexico* (AD Suspension Agreement). The amendment to the AD Suspension Agreement modifies the definitions for sugar from Mexico, revises the reference prices for the applicable sugar from Mexico, and provides for enhanced monitoring and enforcement mechanisms.

Changes to the current regulations applicable to automatic and non automatic Import Licenses

On 7 July 2017, [Resolution Nº 523/2017](#), issued by the Secretary of Commerce, introduced a number of changes to the current regulations applicable to Automatic (LA) and Non Automatic (LNA) Import Licenses.

The main points are:

- To obtain a Non Automatic Importation License, importers must be previously registered with the Registro Único del Ministerio de Producción (R.U.M.P.). It is also required to fill in a request with the Sistema Integral de Monitoreo de Importaciones (SIMI) and provide all the information regarding the exporter, importer and shipment required in the AFIP's online system. Such information must be provided no longer than ten days after the oficializado status of the license.
- For all the products subject to Non Automatic Importation Licenses, the Secretariat could require the importer to provide further information or documentation with respect to the operation. Said inquiries must be answered within ten business days after being duly notified. If not answered in time, the whole procedure would be automatically canceled.

- In the import operations subject to Non Automatic Importation Licenses, the tolerance allowed will be: seven per cent –in more or less- when it comes to FOB value declared and seven per cent in more –and no cap in less- when it comes to the quantity declared.
- These changes will apply only to those Licenses requested after the resolution's issuance.
- The public office in charge of the implementation of this new scheme is the Dirección Nacional de Facilitación del Comercio Exterior, a division of the Secretariat of Foreign Commerce (Secretariat of Commerce) of the Ministry of Production.

For additional information, please contact [Esteban Pablo Rópolo](#) in our Buenos Aires office.

Classification opinions, advance rulings and classification valuation and origin decisions

The National Customs Service has made [Advance Classification Rulings](#) (Resoluciones Anticipadas Clasificación) from 2010 to the present available. Post entry [Classification, valuation and origin decisions on claims](#) (fallos de reclamaciones) at the first and second instance levels from 2003 to the present are also available.

Colombia

TPTA information

Information, on the *Colombia-United States Trade Promotion Agreement* including presentations, rules of origin and TRQ information (all in Spanish) may be [found here](#). Sample (non-mandatory) Certificates of Origin are [available here](#).

Tariff Classification Resolutions

Tariff Classification Resolutions may be found [here](#).

MinCIT, MinHacienda and DIAN Documents

The following documents of interest to international traders were posted by the [Ministry of Commerce, Industry and Tourism](#) (MinCIT), [Ministry of Finance](#) (Hacienda) or the [National Directorate of Taxes and Customs](#) (DIAN). *[Note that reference prices for agricultural products are no longer included in the Update]:*

Date	Subject
07-07-17	MinCIT: Decree 1116 "By which the Customs Tariff is partially modified and provisions are established for the importation of hybrid vehicles and charging systems"
18-07-17	DIAN: External Cir. № 000012/2017 (17-07-17) Guidelines for requesting cancellation of sworn statements of origin .
31-07-17	DIAN: Circular 293 Ad valorem levies applicable to reference agricultural products, their substitutes, agroindustrial products or by-products
	DIAN: Circular 000025 Reference Prices of Agricultural Products

Ecuador

Ecuador removes import surcharges

The WTO [reports](#) that Ecuador told a meeting of the WTO's Committee on Balance-of-Payments Restrictions on 21 July that the final phase-out of the surcharges was made effective on 1 June. The report stated that:

Ecuador imposed the surcharges in March 2015, for 15 months, in response to a sharp drop in oil prices starting in late 2014, which led to a deterioration in the country's balance of payments. The tariff surcharges were initially fixed at between 5% and 45% and were applied to nearly 3,000 tariff lines, or 38% of the country's total.

Following an earthquake which struck the country in April 2016, Ecuador decided to extend the surcharge for one year, until June 2017.

Humberto Jiménez Torres, Vice Minister of Negotiations, Integration and Trade Defence in Ecuador's Ministry of Foreign Trade, told the committee that the safeguard made it possible for Ecuador to protect its external financial situation, restore macroeconomic balance and safeguard its dollarized economy.

Ecuador's government said that it was not considering re-establishing, or establishing any new, safeguard measure for balance of payments purposes. According to Mr. Torres, Ecuador is seeking to increase trade by expanding its network of free trade agreements.

Peru

Tariff Classification database

A searchable [Tariff Classification Resolution \(ruling\) database](#) (from 2006 through the present) is available. It may be searched by the tariff number, resolution number, or description. The database currently has approximately 7400 resolutions, some with photographs.

SUNAT and *El Peruano* publications

The following documents of interest to international traders were posted during the past month by [SUNAT](#) (National Superintendent of Customs and Tax Administration) or in the legal standards section of [El Peruano](#) (the Official Gazette) (dd-mm-yy):

Date	Subject
05-07-17	SUNAT: Resolution No. 11-2017 / SUNAT / 5F0000 Modify Specific Procedures Valuation of Goods under the WTO Value Agreement DESPA-PE.01.10a (version 6)

Australia

Penalty unit value increased as of 1 July

[Department of Immigration and Border Protection \(DIBP\) Notice No. 2017/19](#) announced an increase to Commonwealth penalty unit value from A\$180 to A\$210 as of 1 July 2017. Consequently, the maximum financial penalties for committing various Commonwealth offences also rose from this date. Under most Commonwealth laws, financial penalties are generally expressed in terms of 'penalty units' instead of dollar figures. As an example, a maximum fine would generally be expressed as '10 penalty units' as opposed to a dollar value of A\$2,100.

This increase in the value of the penalty unit will ensure that financial penalties remain an effective punishment and deterrent to the commission of Commonwealth offences. To ensure the real value of the penalty unit is maintained, the penalty unit will then be automatically increased according to inflation every three years, beginning from 1 July 2020.

The new penalty unit value will only apply to offences that are committed on or after 1 July 2017. This means that the changes will not apply to current proceedings or offences that were committed before this date. Any fines imposed for offences committed before 1 July 2017 will be based on the value of the penalty unit at the time the offence was committed.

A table in the Notice illustrates the change with examples that indicate the maximum penalty a court may impose and what will be imposed under the Infringement Notice Scheme (INS) that came into effect on 1 February 2014.

DIBP recognises that behaviour falls on a spectrum ranging from positive compliance through to intentional or criminal non-compliance. DIBP employs a suite of treatments that are proportionate to the compliance behaviours identified and the level of risk they pose. These range from, but are not limited to, education and awareness initiatives through to the issuing of administrative penalties or prosecution for systemic or serious breaches.

Statutory review of existing autonomous sanctions listings in relation to Ukraine - public consultations

On 14 July 2017, the Department of Foreign Affairs and Trade (DFAT) [announced](#) that it was inviting members of the public to comment on a review of Australia's autonomous sanctions imposed on 63 individuals and 21 entities in response to Russia's ongoing threat to the sovereignty and territorial integrity of Ukraine.

These individuals and entities have been designated for the purpose of targeted financial sanctions and these individuals have also been declared for the purpose of travel bans by the Minister for Foreign Affairs.

Designations and declarations made under the *Autonomous Sanctions Regulations 2011* expire after three years, unless extended by the Minister. The designations and declarations under review were made by the Minister on 2 September 2014 and will expire on 2 September 2017 unless extended.

[Details of the listings currently under review and how to make a submission.](#)

Submissions will be accepted until 5pm on Wednesday 2 August 2017.

The full list of individuals and entities designated for targeted financial sanctions under Australian law, including for Australian autonomous sanctions in relation to Ukraine, is on the [DFAT Consolidated List](#).

DIBP notices and advices

The following Department of Immigration and Border Protection (DIBP) Notices and Cargo advices (ACCA) were issued during the period covered by this Update:

Date	Series and №	Title
06-07-17	DIBP № 2017/19	Increase to Commonwealth penalty unit value from \$180 to \$210
20-07-17	DIBP № 2017/21	Assurances that imported goods do not contain asbestos

Japan

Orders and Notices to enforce Revised Foreign Exchange and Foreign Trade Act issues

On July 14, 2017, the Ministry of Economy, Trade and Industry (METI) [announced](#) that the Cabinet and Ministerial Orders and the Public Notices required for the enforcement of the *Revised Foreign Exchange and Foreign Trade Act* (Revised Act) were promulgated and publicized in the *Official Gazette* on July 14, 2017. Aiming to exercise the strict control of critical technologies and goods and enhance the effectiveness of sanctions related to any illegal acts concerning imports and exports, the Revised Act increases the severity of penalties and tightens administrative sanctions imposed on import/export regulation violators and strengthens the regulations concerning inward direct investment related security.

The Revised Act was discussed at the ordinary session of the Diet in 2017 and enacted in May 2017. The Cabinet Order sets the effective date of the Revised Act as October 1, 2017.

To address businesses that evade sanctions under the import/export prohibition order by using distinct companies, the Revised Act introduces a new system in which Japan is allowed to issue a prohibition order to board members or employees of a company on which an import/export prohibition order has been imposed, preventing them from taking board member or other positions in charge of import/export operations in another company.

Regarding this system, the Cabinet and Ministerial Orders define the term “employee” subject to the above order, as “personnel who supervise business conducted in the business offices” and/or “personnel who substantially act for any other business equivalent to the former business including those who routinely supervise business.”

The direct investment measures include provisions related to specified acquisitions. The Revised Act add specified acquisition (a transfer of shares issued by non-listed companies between foreign investors) into the coverage of controlled

targets under the system in which foreign investors are required to submit a prior notification and receive an examination.

The Cabinet and Ministerial Orders and the Public Notice stipulate specified acquisitions for which foreign investors are not required to submit a prior notification (acquisition through inheritance or as a testamentary gift) and those for which specified business types are subject to the submission of prior notifications (e.g., weapon manufacturing industries).

The Revised Act establishes a system in which government orders to take corrective measures (e.g., orders to sell stock) may be imposed on a foreign investor who has made an illegal inward direct investment (e.g., without submitting a notification). The Cabinet and Ministerial Orders will stipulate specific methods for advancing necessary measures and communicating orders, e.g., delivery of a document describing the details of such orders by mail, or by personal service, while returning the document by making service by publication effective in the case that recipient's address is unknown.

Malaysia

Strategic Trade (Amendment) Act 2017

Background

By way of background, the *Strategic Trade Act 2010* (STA) came into force on 1 January 2011 and implemented for the first time in Malaysia export controls based on the Wassenaar Arrangement, the Australia Group, the Missile Technology Control Regime, and the Nuclear Suppliers Group. Malaysia was the second country within ASEAN to implement such export controls after Singapore.

The STA applies to any person who exports, transships, brings-in-transit and brokers strategic items or unlisted items, whereby a permit would be required from the Strategic Trade Controller of the Ministry of International Trade and Industry (MITI). Strategic items are prescribed in the *Strategic Trade (Strategic Items) Order 2010* (updated as of 2017), which provides two separate lists for military items and dual-use items.

Since the inception of the STA, MITI as the relevant ministry in charge of the STA, has lead various efforts across industries in both the private and public sector to raise awareness of export control obligations under the STA and its licensing requirements. In its efforts also to be more trade facilitative, MITI had engaged various stakeholders to study the impact of the STA on business, and to identify areas of improvement.

One common criticism of the STA centered around the wide definition of the term 'brokering', as the existing term caught not only intermediaries who buy and sell strategic items on behalf of others, but also those facilitating the purchasing, financing, conveying, sale or supply of such items. This was broad enough to cover a wide range of persons involved in any transaction within a supply chain such as freight forwarders, financiers, insurers, and even persons providing support-based services which could be deemed to facilitate the sale or supply of strategic items.

The other criticism of the STA surrounded the harsh penalties that could be imposed under the STA, from the death penalty for exports of or brokering of military arms without a licence (which results in death), to minimum fines of MYR 10 to 30 million (approximately USD 2.38 to 7.2 million) for corporations found to have exported strategic or unlisted items without a licence, and MYR 5 to 10 million (approximately USD 1.2 to 2.38 million) for individuals found to have exported strategic or unlisted items without a licence.

Through industry efforts and the support of MITI to ensure that Malaysia remains competitive as a trading hub, amendments were proposed to the STA. On 27 April 2017, the *Strategic Trade (Amendment) Bill 2017 (Amending Bill)* was passed by the Upper House of Parliament and finally received royal assent on 19 June 2017. The effective date of the Act has yet to be announced but is expected to be gazetted soon.

Key Changes

The Amending Bill introduces new provisions within the STA and amends several existing provisions within the STA. The key changes under the Act are summarised as follows:

a) Refined "Brokering" Definition and Carve-Out for 'Ancillary Services'

Under the STA, any act of brokering of strategic items requires a valid broker registration permit from MITI. As stated above, under the previous definition, "brokering" was very widely defined to include any acts of facilitating the purchase, financing, insurance, conveyance, sale or supply of strategic items. The Amending Bill has removed the term facilitation, and restricts the application of the term to any person who negotiates or arranges the purchase, sale or supply of strategic items, or who purchases, sells or supplies strategic items, from one foreign country to another foreign country.

A specific exclusion is also given to any person whose sole involvement in a strategic item transaction, is to provide 'ancillary services', which includes transportation, financial services, insurance or re-insurance, general advertisement, or any other ancillary services as may be determined by MITI.

The effect of the amendment is to restrict the brokering registration requirement to only transactions occurring outside Malaysia, whereas the previous position applied to transactions within Malaysia, from within Malaysia to outside Malaysia, and vice versa. The carve-out provided in new section 11(4) is also useful to persons providing 'ancillary services' to bring them outside the scope of the brokering registration requirement.

b) Broader Definition of "Authorised Officers"

Under the STA, powers of enforcement of the act were granted to officers from the Royal Malaysian Customs Department, the Royal Malaysia Police, the Malaysian Maritime Enforcement Agency and the Malaysian Communications and Multimedia Commission. The Amending Bill now extends such powers to officers from the Atomic Energy Licensing Board (AELB), the Pharmaceutical Services Division (PSD), the Central Bank of Malaysia, the Securities Commission of Malaysia and the Labuan Financial Services Authority.

This amendment was deemed appropriate as it would afford agencies such as the AELB and PSD (which are involved in reviewing and approving licence applications for strategic items related to nuclear and chemical items) enforcement powers for offences involving items falling under their purview and expertise. On the other hand, the enforcement powers given to the Central Bank of Malaysia, the Securities Commission of Malaysia, and the Labuan Financial Services Authority would be required in relation to offences regarding provision of financial services, funds or other types of

economic resources or assistance to persons falling within the *Strategic Trade (Restricted End-Users and Prohibited End-Users) Order 2010*.

c) Presumption as to Export

The Amending Bill introduces a new provision in the form of section 12A to provide that strategic items and unlisted items will be deemed to have been exported from Malaysia if such items (i) have been cleared by Customs on their route out of Malaysia, (ii) have been loaded onto a conveyance which is about to depart from a port or place in Malaysia, or (iii) have been cleared by Customs at an inland clearing depot or customs station on their route out of Malaysia through a customs port or airport.

d) Requirement of 'End-Use' Statements now Optional rather than Mandatory

Previously under the STA, any person applying for a licence (to export, transship or bring-in-transit strategic items) or special licence (to export to restricted end-users) under section 14 of the act, shall accompany such application with an end-use statement in the prescribed format. Under the Amending Bill, it is no longer mandatory for the exporter to provide an end-use statement for an application for a licence or special licence unless required by MITI.

e) Replacement of Minimum Fines to Maximum Fines

Penalties for offences under the STA were previously imposed on a 'minimum penalty' basis (e.g. minimum of five (5) years imprisonment, and/or minimum fines of MYR 5 million). Whilst the penalty amounts under the STA remain the same, these are now prescribed to be on a 'maximum penalty' basis (e.g. maximum of five (5) years imprisonment, and/or minimum fines of MYR 5 million).

f) Power to Compound Offences under the STA

Previously under the STA, there was no provision for compounding of any offences committed under the act. In other words, MITI had no discretion to compound an offence committed under the act by offering a fine in exchange for non-prosecution of any offence. These powers are generally useful as they allow authorities a discretion to compound less serious offences which may not warrant prosecution (e.g. intra-group transfers of strategic items, inadvertent exports to 'low-risk' countries or end-users, or other non-compliances of a less serious nature).

Accordingly, under the existing STA, MITI would have no other option but to refer any non-compliances to the Attorney General's Chambers for a decision on whether to prosecute an offence under the act. If found guilty, minor offenders and serious offenders alike were subjected to harsh penalties under the STA.

Based on the Amending Bill, the Minister of International Trade and Industry may make regulations prescribing any offences under the Act to be a compoundable offence, and set out the criteria for compounding of such offence and the method and procedure to compound such offence.

Based on such regulations, any authorised officer may make a written offer to the person suspected of committing an offence to compound such offence by paying a sum not more than 50% of the maximum fine prescribed for such offence. Such offer would need to have obtained the consent in writing of the public prosecutor. To date however, the regulations setting out the criteria for MITI to compound an offence under the STA is still pending.

Conclusion

The Amending Bill introduces much welcomed changes to the STA and MITI is commended on its efforts in pushing ahead with the amendments to have more trade-facilitative export control laws, to cater to today's changing and dynamic

business environment. This is important as Malaysia remains a crucial trading partner of many major economies around the world and is plugged into international supply chains.

The new brokering definition is particularly helpful to companies falling within the 'unjustifiably wide' ambit of the brokering controls previously, and the introduction of compounding provisions and maximum penalties also make it useful for companies who have inadvertent gaps in export control compliance to go forward to the authorities to disclose non-compliances and receive administrative fines without criminal sanctions in return. This will contribute towards a higher compliance culture, akin to other more developed countries who have also adopted export control legislation around the world.

As the regulations prescribing the criteria to compound offences under the STA have not been announced, this will be awaited with baited breath by industry professionals and practitioners alike.

It should be noted also that whilst the Amending Bill has introduced more flexibility to the STA, there could also be heightened monitoring and enforcement of the licensing obligations under the act given the extension of powers now given to additional government authorities and agencies. As such, businesses are well advised to ensure strict and continued compliance with export control laws under the STA to minimise risks and exposure moving forward.

New GST relief on supplies directly connected to exported goods

The Royal Malaysian Customs Department (Customs) recently issued a Goods and Services Tax (GST) Relief by the Minister of Finance 1/2017 (**Relief 1/2017**) granting suppliers a relief from the obligation to charge GST on certain types of supplies which are made directly in connection with exported goods, subject to certain prescribed conditions.

The Relief 1/2017, which was made pursuant to Section 56(3)(b) of the Goods and Services Tax Act 2014, came into effect on 1 July 2017.

Types of Supplies Granted GST Relief

The supplies which are granted GST relief under the Relief 1/2017 are categorised under four broad groups. These four groups of supplies are summarised in the table below:

Group	Type of supplies
1	<p>Handling services or storage services directly in connection with goods for export, such as:</p> <ul style="list-style-type: none"> • transport ancillary to the handling of ship or aircraft cargo; • stevedoring and portering; • loading, unloading, reloading, stowing, securing and shifting cargo for the use of cranes and weighing machines together with an operator; • soiling, opening for inspection, repairing and making good, weigh-

Group	Type of supplies
	<p>ing and taring, taping and sealing, erasing and re-marking, labelling and re-numbering, tallying, checking, sampling, measuring or gauging of goods;</p> <ul style="list-style-type: none"> • packing and unpacking of cargo; • survey of cargo; • cargo security services; • presenting goods for Customs examination; • preparing or amending Customs entries; • preparing or amending bills of lading, air waybills and certificates of shipment; • container handling for which a box charge is made; or • transit rate, basic rate, consolidated rate and stevedoring rate, if they relate solely to goods handling at free zone.
2	<p>Supply of services by a company with licensed manufacturing warehouse status or a company operating in a free zone directly in connection with goods for export, such as:</p> <ul style="list-style-type: none"> • manufacturing activities; • activities in the construction, building and modifications of the ship (including any floating structure) and aircraft; • maintenance, repair and overhaul activities of floating structure; • installation, repair, cleaning, restoration and modification of the goods; or • blending, homogenising, heating and other related activities in the oil and gas industry.
3	<p>Supply of research and development ("R&D") services directly in connection with goods for export involving:</p> <ul style="list-style-type: none"> • the research, design and development of a new product; or • the enhancement of an existing product.
4	<p>Supply of tools or machines which are highly customised or specialised in nature and used for the manufacturing of goods in Malaysia and services directly in connection with such tools or machines.</p>

Prescribed Conditions of the GST Relief

The prescribed conditions of the GST relief, as set out in the Relief 1/2017, include:

Recipient of the supply must be an overseas customer

The supply must be made to an overseas customer wholly in his business capacity and who:

- (a) belongs in a country other than Malaysia;
- (b) is outside Malaysia at the time the services are performed; and
- (c) does not have a fixed establishment in Malaysia including a branch or an agency through which the overseas customer carries on a business in Malaysia.

Approval of the Director General of Customs (DG)

A supplier in respect of a supply under Group 2 or 3 is required to apply for the DG's approval by way of a written application in order for the supply to be relieved from GST.

Export of the relevant goods

The goods in respect of which the supply of services is made must be exported in order to be eligible for the relief.

(a) For supplies under Groups 1, 2, and 3, the goods must be exported within 60 days from the date of completion of the services to qualify for GST relief. Additionally, a written confirmation from the overseas customer to the supplier stating that the goods are to be exported within the 60 days period is required.

(b) For supplies under Group 4, the tools or machines must be exported after the manufacturing process.

With regards to Group 1 specifically, if the goods are sent by the supplier to a third party in Malaysia for other services, the services supplied by the supplier would be subject to GST, unless the goods are subsequently exported by the third party within 60 days from the date of completion of the services by the third party or any other approved period.

Record keeping requirements

To qualify for GST relief, the supplier is also required to keep and maintain certain documentations, for example:

- (a) the purchase order issued by the overseas customer to the supplier or the relevant contract between the supplier and the overseas customer;
- (b) the tax invoice issued by the supplier to the overseas customer in respect of the services;
- (c) the proof of payment of the services made by the overseas customer to the supplier; and
- (d) the relevant export documents, such as the Customs Prescribed Form K2 / Form K8 or the Free Zone Prescribed Form ZB1.

Impact to Businesses

In light of the Relief 1/2017, it would be timely for GST-registered businesses that make supplies which are directly in connection with exported goods to undertake a review to determine if their supplies would fall under the scope of this new GST relief and if it would be reasonably practical for the business to comply with all prescribed conditions of the relief. If so, it would be prudent to exercise care in ensuring that all the relevant conditions are complied with in order to enjoy the GST relief under the Relief 1/2017 and that the transactions are reported correctly in the GST returns.

The rulings may be found under the topic: [Ketetapan Kastam](#).

New Zealand

Export of indigenous timber

From 1 August 2017 exporters of indigenous timber will need to have a single use permit number to clear their export entries through New Zealand Customs' computer system. The non transferable permit number will be provided to the exporter by the Ministry for Primary Industries on the completed approved Intention To Export (ITE) form. The export of indigenous timber is prohibited unless the conditions of [section 67C of the Forests Act 1949](#) have been met.

There is no change to the requirements which exporters must meet to obtain the required approval to export. This process change will facilitate the clearance of appropriately approved, lawful exports.

Further information necessary for exporters of indigenous timber can be found [here](#). Specific information on the export of swamp kauri can be found [here](#).

Any queries on the export of indigenous timber should be directed to Indigenous.Forestry@mpi.govt.nz

Consultation on draft regulations for drawbacks of duty

On 14 July 2017, the N.Z. Customs Service (NZCS) [reported](#) that the *Customs and Excise Bill* is currently awaiting its Second Reading in Parliament, and NZCS is working on draft regulations for implementation of the Bill relating to duty drawbacks (refunds where duty-paid goods are later exported). NZCS is seeking public feedback by 19 July. The NZCS preferred approach is outlined below:

Drawbacks of duty

NZCS wishes to maintain exporters' ability to make late and periodic drawbacks under s149 of the Bill. The agency is proposing:

For late drawbacks

1. An exporter can make a drawback claim up to four years from the date of the relevant export entry, provided that the chief executive of Customs is satisfied with evidence supporting:

- 1.1 the amount of duty originally paid on the goods
- 1.2 the shipment of goods to an overseas destination
- 1.3 reasons given by the exporter for a late drawback application
- 1.4 any other matter that is reasonable in relation to the drawback application.

For periodic drawbacks

2. An exporter can make a drawback claim for all exports made during a period not exceeding three months, provided the chief executive of Customs is satisfied with evidence that:

- 2.1 filing a drawback with an export entry would be unduly onerous on the exporter, given the volume of exports
- 2.2 the exporter has an acceptable record of compliance with Customs requirements
- 2.3 the exporter has documented systems in place to account for, track and demonstrate that each periodic drawback was the correct amount for the permitted period, and that
- 2.4 the exporter agrees to any conditions that the chief executive of Customs may reasonably require in granting permission for periodic drawbacks.

Minor technical change

3. The current regulation (68(1)(a)) states that the deadline for a standard drawback is six hours prior to the intention of shipping. The NZCS proposes instead that drawbacks are to be made at the time of the export entry to align the requirement with current practice and the provisions in the Bill.

Singapore

Changes to the Strategic Goods Control List

The new [Strategic Goods \(Control\) Order 2017](#) ("SGCO 2017") was gazetted on 3 July 2017, and will come into effect from 1 September 2017.

The SGCO 2017 brings Singapore's strategic goods control list up to date with the 2016 Wassenaar Arrangement Munitions List, and the 2016 European Union's List of Dual-Use Items ("EUDL"). The EUDL contains dual-use items controlled by the four multilateral export control regimes (the Australia Group, the Missile Technology Control Regime, the Nuclear Suppliers Group and the Wassenaar Arrangement).

The SGCO 2017 will incorporate revisions such as new controls, relaxation of controls, as well as editorial changes for consistency and clarity of controls. The highlights of key changes to the strategic goods control list can be found via our website.

Singapore Customs will be holding an awareness briefing on the changes to the strategic goods control list on 12 July 2017. Traders and declaring agents, including exporters, carriers, cargo agents and freight forwarders, as well as academicians and researchers, are encouraged to attend the briefing to familiarise themselves with the updates to ensure continuity in business compliance. You may refer to Notice No 08/2017 for the registration details. For those who are unable to attend the briefing,

materials on the changes to the strategic goods control list will be available on the Customs eLearning portal after the briefing.

Changes to the *Strategic Goods (Control) Regulations* ("SGCR")

The scope of strategic goods subject to transshipment controls will be expanded to include 2 new category codes (i.e. 1C351.a.57 and 1C351.a.58). This change will be reflected in the 4th Schedule of the *Strategic Goods (Control) Regulations* ("SGCR"). Any person, who intends to tranship goods listed in the 4th Schedule of the SGCR must submit the strategic goods transshipment permit at least 5 working days before the loading of goods onto the conveyance on which the goods are to be brought out of Singapore. There is no change to the transit goods listed in the 5th schedule of the SGCR.

The [Strategic Goods \(Control\) \(Amendment\) Regulations 2017](#) will come into effect from 1 September 2017.

Technical Amendment to the *Strategic Goods (Control) Brokering Order 2007*

A technical amendment will be made to the *Strategic Goods (Control) Brokering Order 2007* to reflect its reference to the new SGCO 2017. There are no changes to the scope of brokering controls.

The [Strategic Goods \(Control\) \(Brokering\) \(Amendment\) Order 2017](#) will come into effect from 1 September 2017.

Thailand

Thai Revenue Department introduces a new E-Commerce Tax Law

The Thai Government has been trying to appropriately conceptualize an e-commerce tax to efficiently capture the percentage of revenue generated by the e-commerce sector which has seen large volume and strong growth recently. Prior to e-commerce, tax collection has relied solely on principles based on the physical presence of the taxpayer and conventional sources of income, thus making the e-commerce tax issue a controversial one across the globe. Recently, the Thai Revenue Department has published the main concepts of its draft e-commerce tax law on its website (without publishing the draft law in full) and has offered an online comment survey form in order to gauge the private sector's view.

THE REVENUE DEPARTMENT'S E-COMMERCE TAX MAIN PRINCIPLES AS PUBLISHED BY THE REVENUE DEPARTMENT

E-commerce tax principles	Remarks
a. An entity incorporated under the laws of a foreign country that conducts trade or	Under Thai domestic tax law, a foreign entity is regarded as carrying on business

E-commerce tax principles	Remarks
<p>business through electronic methods, if it falls into one of the following categories and as a result receives income or profits in Thailand, shall be deemed to be carrying on business in Thailand and subject to income tax in Thailand, only with respect to such income or profits:</p> <ol style="list-style-type: none"> (1) having a Thai internet domain; (2) having created a payment system in Thai Baht or that requires a money transfer from Thailand; and (3) any other cases as further prescribed by the Director-General. 	<p>in Thailand and subject to corporate income tax in Thailand if it:</p> <ol style="list-style-type: none"> (a) carries on business in Thailand by itself, e.g. opens branch office in Thailand; or (b) is deemed to carry on business in Thailand, e.g. has an employee, go-between, or an agent generating income in Thailand. <p>However, the foreign entity may be entitled to benefits under an applicable tax treaty. Under the general rule of tax treaty, the foreign entity will be taxed under the domestic tax law only if it carries on business in Thailand through a permanent establishment (PE).</p> <p>In some cases, a foreign entity is considered to be carrying on business in Thailand under Thai domestic tax law, but is not regarded as having a PE in Thailand, and therefore it will not be taxed in Thailand by virtue of tax treaty protections.</p> <p>This proposal is to amend the domestic tax law to expand the meaning of “carrying on business in Thailand”, in order to make foreign e-commerce operators subject to Thai corporate income tax. However, the Revenue Department's proposal still does not cover how the e-commerce tax proposal will interact with the applicable tax treaty.</p>
<p>b. If an entity incorporated under the laws of a foreign country conducts trade or business using electronic methods and does not carry on business in Thailand but receives taxable income from such trade or business in the form of online advertising fees, web hosting fees, or any other types of income prescribed in a Ministerial Regulation, the payer of such taxable income shall withhold income tax from the taxable income at the rate of 15 percent and remit it to the Revenue Department.</p>	<p>It is still unclear whether the mechanism to impose withholding tax on the payment related to online advertisement or web hosting fees will be through a re-categorization of such fees as royalties or the imposition of a new type of withholding tax under the Revenue Code.</p> <p>In addition, the Revenue Department is still silent about possible relief under the DTAs for to the withholding tax.</p>
<p>c. Entrepreneurs outside the Kingdom of Thailand that sell intangible assets or provide services by using electronic methods to a purchaser or client who is not a value added tax registrant, if its income from selling intangible assets or providing services exceeds Baht 1.8 million per year, shall register as a value added tax registrant and be subject to the value added tax pursuant to the rules, procedures, and conditions prescribed by the Director-General.</p>	

E-commerce tax principles	Remarks
d. If an entrepreneur outside the Kingdom of Thailand sells intangible assets or provides services through a website or application owned by a third party, the owner of the website or application shall be deemed to be the representative of the entrepreneur and shall apply for value added tax registration for the entrepreneur.	If a foreign operator provides a marketing platform to sellers or service providers it may be deemed as a VAT agent having obligations to register for VAT in Thailand for the sellers or service providers, there is still questions about the mechanism to enforce such VAT agent system.
e. The exemption of VAT on the importation of goods with a value less than Baht 1,500 will be repealed.	

The Revenue Department allowed the private sector to express its views on the draft e-commerce tax law on its website until 11 July 2017. The Revenue Department expects to propose a draft of the e-commerce tax law to the Cabinet for consideration by the end of July and it is expected that the legislation will take effect by the end of this year. After the Revenue Department has gathered the public's comments on the e-commerce tax law, we hope to see that the e-commerce tax law develops more clarity and practicality.

For additional information, please contact [Aek Tantisattamo](#) of our Bangkok office.

Subordinated laws under the Government Procurement and Supplies Management Bill

The *Government Procurement and Supplies Management Bill* (the Bill) will come into force on 23 August 2017. All government agencies, including state owned enterprises, local government administrations, universities under government control, administrative offices of courts, and independent state organizations, must strictly comply with it.

The Comptroller's General Department is now preparing 19 subordinated laws, eight of which will be enforced on 24 August 2017. The eight are:

- Regulations of the Ministry of Finance Governing Government Procurement and Supplies Management;
- Ministerial regulation on the threshold of money in each type of procurement;
- Qualifications and restrictions on business operators; qualifications and restrictions examination or follow-up examination; revocation of name from registration; official fee for registration; including method and principals of appeals, and consideration of appeals;
- Ministerial regulation on procurement and hire of consultants that the state would like to promote or support;
- Ministerial regulation on the registration of consultants;
- Ministerial regulation on hire rates for contractors who provide design service or construction work supervision;
- Ministerial regulation on additional definitions of procurement; and
- Ministerial regulation on additional restrictions to appeals.

As always, our team at Baker McKenzie will continue to provide updates as these further developments occur. For additional information, please contact [Yuthana Sivaraks](#) in our Bangkok office.

Vietnam

Representative offices, business associations, etc., lose capacity to operate bank accounts under recent Civil Code amendments

Law No. 91/2015/QH13 on the *Civil Code* was adopted by the National Assembly on November 24, 2015, and entered into force January 01, 2017 (“Civil Code 2015”). The Civil Code 2015 only provides for the legal capacity of legal entities (judicial persons) and individuals (natural persons) in civil transactions. Accordingly, Civil Code 2015 omits the legal capacity of non-legal entities to conduct any civil transaction. Among other things, this means many thousands of non-legal entities, including representative offices, business associations, branches of offshore enterprises, offices of foreign contractors and NGO offices, may no longer be able to engage in any civil transaction as a party to such transactions.

Non-legal entities can no longer open/maintain bank accounts

The State Bank of Vietnam (“SBV”) has adopted the new, more limited approach of the Civil Code 2015 on legal capacity. An example is in Circular No. 32/2016/TT-NHNN dated December 26, 2016 (“Circular No. 32”), which amends Circular No. 23/2014/TT-NHNN dated August 19, 2014 on the guidelines for the opening and maintaining of current accounts at payment services providers. Circular No. 32 came into effect from March 01, 2017. As stipulated in Article 4 of Circular No. 32, non-legal entities are not allowed to open and maintain a bank account in their own capacity. This means all non-legal entities must either change the account holders, or close their bank accounts.

Options for non-legal entities and their existing bank accounts

Specifically, the SBV requires that, by March 01, 2018, in accordance with the instructions of their banks, non-legal entities must either (i) close their current bank accounts, or (ii) change their current bank accounts to the form of an individual bank account or a shared bank account with a legal entity (such as the parent company).

The SBV also requires that as of June 01, 2017, banks and foreign bank branches had to review their client portfolios and then inform and assist their non-legal entity clients regarding the impact of the new regulations on their clients' bank accounts. The banking community has been reluctant to follow through on these requirements pending clarification of the many technical complications such a huge undertaking involves. For example, while guidelines have been provided for head offices of representative offices to authorize an account holder to open and maintain a bank account on its behalf, no guidelines have yet been agreed for business associations, NGOs, etc.

Europe, Middle East and North Africa

European Union and EFTA

Arkady Rotenberg relisted under EU sanctions

The EU has published [Implementing Regulation \(EU\) 2017/1374](#) (the “Implementing Regulation”), re-imposing asset freeze measures on Arkady Rotenberg under the EU’s sanctions targeting parties thought to be involved in undermining or threatening the territorial integrity of Ukraine in [Regulation \(EU\) 269/2014](#) (the “Regulation”).

Mr Rotenberg’s original listing was removed in November 2016, after the General Court found the reasons for listing were unlawful. This was because the EU had failed to demonstrate Mr Rotenberg’s association with people responsible for undermining Ukraine’s territorial integrity. They had also relied on contracts that pre-dated the annexation of Crimea, as evidence that he benefitted from it. The new Implementing Regulation amends Mr Rotenberg’s listing in Annex I to Regulation (EU) 269/2014 to provide more extensive reasons for listing.

For additional information, please contact [Ross Denton](#) or any member of our European International Commercial and Trade group with whom you normally work.

Public consultation on the exchange of customs related information with third countries

The European Commission is [seeking the views](#) of all interested parties on exchange of customs related information with third countries. This includes contributions from citizens, companies, NGOs, academics, public authorities, international organisations, etc.

The consultation aims to gather views from stakeholders on the need for EU action aimed at introducing an effective tool to allow for systematic exchange of customs related information with third countries and in case there is, on how this tool could be designed and its scope. The following documents are available:

- [Consultation strategy](#)
- [The Inception Impact Assessment document](#)
- [Survey](#)

The consultation will be open from 18 July 2017 to 16 October 2017.

European Council introduces restrictions on export of dinghies and motors to Libya

The European Council (the “Council”) today introduced restrictions on the export and supply to Libya of inflatable boats (dinghies) and outboard motors to further disrupt the activity of people smugglers and human traffickers. The restrictions, adopted on 17 July 2017, will allow EU member states to legally prevent the export or supply of these goods to Libya where there are reasonable grounds to believe that they will be used in such activity. The restrictions will also apply to dinghies and motors which are transiting through the EU to Libya, but will not

prohibit the export or sales of these goods when they are intended for legitimate uses by the civilian population. The Council's conclusions on Libya can be read in full [here](#). The relevant [Decision](#) and amending [Regulation](#) were published in the Official Journal of the European Union on 18 July 2017.

For additional information, please contact [Ross Denton](#) or any member of our European International Commercial and Trade group with whom you normally work.

European Council imposes sanctions against 16 additional persons

On 17 July 2017, The European Council (the "Council") added a further 16 persons to the list of persons targeted by EU's Syrian sanctions regime. These persons include 8 scientists and 8 high ranking military officials, each involved in the development and use of chemical weapons against the Syrian civilian population. This decision brings the total number of persons being targeted by a travel ban and asset freeze to 255. In addition, 67 entities are now subject to an assets freeze.

The Council's press release can be read in full [here](#). The relevant [Decision](#) and amending [Regulation](#) were published today, 18 July 2017, in the Official Journal of the European Union. HM Treasury has also published a notice, which can be viewed [here](#).

For additional information, please contact [Ross Denton](#) or any member of our European International Commercial and Trade group with whom you normally work.

European Council hints at additional restrictive measures against North Korea

The European Council (the "Council") has adopted conclusions relating to the Democratic People's Republic of Korea (the "DPRK"). Therein, the Council expresses concern about the regime's activities to raise hard currency to fund its nuclear and ballistic missile programmes. While the Council notes that EU sanctions against the DPRK are amongst the most restrictive, it states that it will consider further appropriate responses in consultation with key partners and in line with UN Security Council deliberations. In particular, it notes the possibility of additional autonomous restrictive measures. The Council's conclusions on the DPRK can be read in full [here](#).

For additional information, please contact [Ross Denton](#) or any member of our European International Commercial and Trade group with whom you normally work.

Commission proposes new rules to stop the illegal import of cultural goods

On 13 July 2017, the European Commission [announced](#) that it is proposing new rules to clamp down on the illegal import and trafficking of cultural goods from outside the EU, which it says is often linked to terrorist financing and other criminal activity. It comes just days after the Hamburg G20 called on countries to tackle terrorist finance, including the looting and smuggling of antiquities. The announcement states in part:

At the moment, the EU applies prohibitions on goods from Iraq and Syria but there is no general EU framework for the import of cultural goods. Current rules can be exploited by unscrupulous exporters and importers who can use the profits to fund illegal activities such as terrorism. Diverging and ineffective existing national legislation in this area means that EU action is necessary to ensure consistent treatment of imports of cultural goods all along the EU's external borders. This will help prevent illicit cultural goods being brought into the EU, directly weakening the cultural, historical and archaeological life of the country of origin.

Plans for the new measures were first set out as part of the Commission's [European Agenda on Security](#) and its [2016 action plan to strengthen the fight against the financing of terrorism](#). In February 2016, [EU Member States recalled](#) the importance of urgently enhancing the fight against the illicit trade in cultural goods and asked the Commission to propose legislative measures on this matter as soon as possible.

The new rules foresee a number of actions which should ensure that the importation of illicit cultural goods becomes much more difficult in the future:

- A **new common EU definition for 'cultural goods' at importation** which covers a broad range of objects including archaeological finds, ancient scrolls, the remains of historical monuments, artwork, collections and antiques. The new rules will apply only to cultural goods that have been shown to be most at risk, i.e. those at least 250 years old at the moment of importation;
- The introduction of **a new licensing system** for the import of archaeological objects, parts of monuments and ancient manuscripts and books. Importers will have to obtain import licences from the competent authorities in the EU before bringing such goods into the EU;
- For other categories of cultural goods, importers will now have to go through **a more rigorous certification system** by submitting a signed statement or affidavit as proof that the goods have been exported legally from the third country.
- Customs authorities will also have the power to **seize and retain goods** when it cannot be demonstrated that the cultural goods in question have been legally exported.

Awareness campaigns targeting buyers of cultural goods, such as professional art market importers but also buyers of cultural goods in Europe are envisaged. In parallel, training sessions for customs officers and other law enforcement services will be organised by Member States in order to improve their ability to recognise suspicious shipments and to co-operate more efficiently in preventing illicit trade.

EU Member States will be obliged to ensure that effective, proportionate and dissuasive penalties are in place for those who do not follow the rules, in particular for anyone who makes false statements or submits false information.

EU and Japan reach agreement in principle on Economic Partnership Agreement

On 6 July 2017, the European Commission [announced](#) that the European Union and Japan have reached an agreement in principle on the main elements of an Economic Partnership Agreement. The announcement said:

This will be the most important bilateral trade agreement ever concluded by the EU and as such will for the first time include a specific commitment to the Paris climate agreement.

For the EU and its Member States, the Economic Partnership Agreement will remove the vast majority of duties paid by EU companies, which sum up to €1 billion annually, open the Japanese market to key EU agricultural exports and increase opportunities in a range of sectors. It sets the highest standards of labour, safety, environmental and consumer protection, fully safeguards public services and has a dedicated chapter on sustainable development. It also builds on and reinforces the high standards for

the protection of personal data that both, the EU and Japan, have recently entrenched in their data protection laws.

The Economic Partnership Agreement will increase EU exports and create new opportunities for European companies, big and small, their employees and consumers.

The value of exports from the EU could increase by as much as €20 billion, meaning more possibilities and jobs in many EU sectors such as agriculture and food products, leather, clothing and shoes, pharmaceuticals, medical devices and others.

In 2013 EU governments instructed the European Commission to start negotiations with Japan. The EU is also negotiating a [Strategic Partnership Agreement](#) with Japan in parallel. Negotiators from both sides will continue their work to resolve all the remaining technical issues and conclude a final text of the agreement by the end of the year.

EU looks into alleged obstacles to trade by Turkey in connection with the importation of certain paper

On 7 July 2017, the European Commission published a [notice](#) in the *Official Journal* indicating that it is initiating an examination following a complaint lodged by an industry association on an obstacle to trade applied by the Republic of Turkey consisting of measures affecting the import of uncoated wood free paper.

The complaint concerns the import surveillance system Turkey introduced as of 28 September 2015 for uncoated wood free paper. That import surveillance system, which according to the complaint introduced a specific import licencing requirement, would apply only to paper imported into Turkey at a customs value of 1 200 USD per tonne or less, a threshold which would cover all imports from the European Union.

According to the complaint, it is impossible for an importer to obtain such import licence due to the specific information requirements of the licencing procedure. To obtain an import licence, the Turkish authorities allegedly request information to which only the producers of the paper have access. For this reason, importers would allegedly see no alternative than to declare a customs value above 1 200 USD per tonne of imported paper even if the actual import value is below this amount.

The complaint also claims that such a declaration of value in excess of the actual value creates, as a secondary effect, an additional charge for the importer of the product as the refund for value-added tax paid upon importation is allegedly limited to the amount of value-added tax collected on the actual sales price and the actual sales price is always below the declared import price. The value-added tax on the difference between those prices would therefore constitute an additional tax levied on imported paper.

The complaint claims that the measures adopted by Turkey could be incompatible with Articles 5 and 50 of the Customs Union Agreement, Articles III:2 and XI:1 of GATT 1994 and the WTO Agreement on Import Licensing Procedures.

Interested parties may submit information in writing on specific issues raised by the complaint or provide supporting evidence. Furthermore, the Commission will hear any interested parties who so request in writing, provided that they are primarily concerned by the result of the procedure. Any information relating to the matter and any request for a hearing should reach the Commission not later than 45 days following the date of publication of the notice and should be sent in writing to: European Commission, Directorate-General for Trade, TRADE.F.2 – Trade Barrier Complaints, CHAR 6/135, 1049 Bruxelles/Brussel, BELGIQUE/BELGIË, Email: trade-tbr@ec.europa.eu.

Commission amends Combined Nomenclature

On 19 July 2017, the *Official Journal* published two amendments to the Combined Nomenclature (CN). [Commission Implementing Regulation \(EU\) 2017/1343 of 18 July 2017 amending Annex I to Council Regulation \(EEC\) No 2658/87 on the tariff and statistical nomenclature and on the Common Customs Tariff](#), makes the following amendment to the CN:

In Chapter 19 of Part Two of the Combined Nomenclature set out in Annex I to Regulation (EEC) No 2658/87, the following additional note 4 is added:

'4. Food preparations of flour, groats, meal, starch or malt extract of heading 1901 as well as those of goods of headings 0401 to 0404 presented in measured doses, such as capsules, tablets, pastilles and pills intended for use as food supplements, are excluded from classification under heading 1901. The essential character of a food supplement is not only given by its ingredients, but also by its specific form of presentation revealing its function as a food supplement, since it determines the dosage, the way in which it is absorbed and the place where it is supposed to become active. Such food preparations are to be classified under heading 2106 insofar as they are not specified or included elsewhere.'

[Commission Implementing Regulation \(EU\) 2017/1344 of 18 July 2017 amending Annex I to Council Regulation \(EEC\) No 2658/87 on the tariff and statistical nomenclature and on the Common Customs Tariff](#) makes the following amendments:

Part Two of Annex I to Regulation (EEC) No 2658/87 is amended as follows:

(a) in Chapter 17, Additional notes 4 and 5 are replaced by the following:

'4. For products of subheadings 1702 20 10, 1702 60 95 and 1702 90 71, the sugar content (sucrose, fructose, glucose and maltose, where the fructose and glucose are expressed in sucrose equivalent) is to be determined by applying the high performance liquid chromatography method (the 'HPLC method'), using the following formula:

$$S + 0,95 \times (F + G) + M$$

where:

'S' is the sucrose content determined by the HPLC method;

'F' is the fructose content determined by the HPLC method;

'G' is the glucose content determined by the HPLC method;

'M' is the maltose content determined by the HPLC method.

For products of subheadings 1702 60 80, 1702 90 80 and 1702 90 95, the sucrose content, including other sugars expressed as sucrose, is to be determined by the refractometry method (expressed in degrees Brix in accordance with the Annex to Commission Implementing Regulation (EU) No 974/2014 [\(1\)](#)). For products of subheadings 1702 60 80 and 1702 90 80, the conversion of the results into sucrose equivalent is to be obtained by multiplying the degrees Brix by the coefficient 0,95.

5. For the purposes of subheadings 1702 30 10, 1702 40 10, 1702 60 10 and 1702 90 30, the term 'isoglucose' means the product obtained from glucose or its polymers with a content by weight in the dry state of at least 10 % fructose.

For products of those subheadings, the sucrose content, including other sugars expressed as sucrose, is to be determined by the refractometry method (expressed in degrees Brix in accordance with the Annex to Implementing Regulation (EU) No 974/2014).

⁽¹⁾ Commission Implementing Regulation (EU) No 974/2014 of 11 September 2014 laying down the refractometry method of measuring dry soluble residue in products processed from fruit and vegetables for the purposes of their classification in the Combined Nomenclature ([OJ L 274, 16.9.2014, p. 6](#)).¹,"

(b) in Chapter 21, Additional notes 3 and 4 are replaced by the following:

‘3. *For the purposes of subheading 2106 90 30, the term ‘isoglucose’ means the product obtained from glucose or its polymers with a content by weight in the dry state of at least 10 % fructose.*

4. *For products of subheadings 2106 90 30 and 2106 90 59, the sucrose content, including other sugars expressed as sucrose, is to be determined by the refractometry method (expressed in degrees Brix in accordance with the Annex to Commission Implementing Regulation (EU) No 974/2014* ⁽²⁾.

⁽²⁾ Commission Implementing Regulation (EU) No 974/2014 of 11 September 2014 laying down the refractometry method of measuring dry soluble residue in products processed from fruit and vegetables for the purposes of their classification in the Combined Nomenclature ([OJ L 274, 16.9.2014, p. 6](#)).²."

Paragraphs 2, 3 and 4 of Article 42 of Regulation (EC) No 951/2006 will be repealed with effect from 1 October 2017. This Regulation should therefore apply from the same date.

Commission issues tariff classification regulations

[See separate section below](#) for tariff classification regulations issued by the European Commission during the period covered by this Update.

Amendments to the CN Explanatory Notes

[See separate section below](#) for amendments to the *Explanatory Notes to the Combined Nomenclature of the European Union* that were published in the *Official Journal* during the period covered by this Update.

Binding Tariff Information

The European Community has created the Binding Tariff Information (BTI) system as a tool to assist economic operators to obtain the correct tariff classification for goods they intend to import or export.

Binding Tariff Information is issued on request to economic operators by the customs authorities of the Member States. It is valid throughout the Community, regardless of the Member State which issued it. For information about an existing BTI, you may want to contact the [customs administration of the Member State](#) which issued it. However, remember that, according to the provisions for data protection, there are limitations as to the information an administration can provide. You can search and consult existing BTIs on the [EBTI-database](#).

Official Journal documents

The following documents of interest to international traders (excluding documents relating to day-to-day management of agricultural matters, individual protected

designations of origin registrations, approvals or restrictions on specific substances and fishing rights) were published in the *Official Journal of the European Union*:

OJ Date	Subject
01-07-17	Council Decision (EU) 2017/1163 of 20 June 2017 on the conclusion, on behalf of the Union and its Member States, of the Protocol to the Stabilisation and Association Agreement between the European Communities and their Member States, of the one part, and Bosnia and Herzegovina, of the other part, to take account of the accession of the Republic of Croatia to the European Union
	Commission Regulation (EU) 2017/1164 of 22 June 2017 amending Annexes II and III to Regulation (EC) No 396/2005 of the European Parliament and of the Council as regards maximum residue levels for acrinathrin, metalaxyl and thia-bendazole in or on certain products
	Commission Implementing Regulation (EU) 2017/1172 of 30 June 2017 amending Implementing Regulation (EU) No 809/2014 as regards the control measures relating to the cultivation of hemp
	Council Decision (EU) 2017/1173 of 26 June 2017 on the position to be adopted, on behalf of the European Union, within the EEA Joint Committee concerning an amendment to Protocol 31 to the EEA Agreement, on cooperation in specific fields outside the four freedoms (Budget line 04 03 01 03)
	Decision No 1/2017 of 16 June 2017 of the Joint Committee established under the Agreement on Mutual Recognition between the European Community and Canada related to the listing of Conformity Assessment Bodies under the Sectoral Annex on Telecommunications Terminal Equipment, Information Technology Equipment and Radio Transmitters [2017/1179]
04-07-17	Commission Implementing Regulation (EU) 2017/1186 of 3 July 2017 withdrawing the approval of the active substance repellents by smell of animal or plant origin/tall oil crude, in accordance with Regulation (EC) No 1107/2009 of the European Parliament and of the Council concerning the placing of plant protection products on the market, and amending Commission Implementing Regulation (EU) No 540/2011
	Decision No 1/2017 of the Joint Committee on Agriculture of 22 June 2017 amending Annex 12 to the Agreement between the European Community and the Swiss Confederation on trade in agricultural products [2017/1189]
05-07-17	Council Decision (CFSP) 2017/1195 of 4 July 2017 amending Decision 2014/129/CFSP promoting the European network of independent non-proliferation think tanks in support of the implementation of the EU Strategy against Proliferation of Weapons of Mass Destruction
	Commission Implementing Decision (EU) 2017/1196 of 3 July 2017 amending Implementing Decision 2014/709/EU concerning animal health control measures relating to African swine fever in certain Member States (notified under document C(2017) 4432)
	Corrigendum to Commission Implementing Regulation (EU) 2015/1986 of 11 November 2015 establishing standard forms for the publication of notices in the field of public procurement and repealing Implementing Regulation (EU) No 842/2011 (OJ L 296, 12.11.2015)
06-07-17	Commission Regulation (EU) 2017/1200 of 5 July 2017 refusing to authorise certain health claims made on foods, other than those referring to the reduction of disease risk and to children's development and health
	Commission Regulation (EU) 2017/1201 of 5 July 2017 refusing to authorise a health claim made on foods, other than those referring to the reduction of disease risk and to children's development and health
	Commission Regulation (EU) 2017/1202 of 5 July 2017 refusing to authorise certain health claims made on foods, other than those referring to the reduction of disease risk and to children's development and health
	Commission Regulation (EU) 2017/1203 of 5 July 2017 amending Directive 2002/46/EC of the European Parliament and of the Council and Regulation (EC) No 1925/2006 of the European Parliament and of the Council as regards organ-

Sweden

Government proposes tightened export controls of military equipment

On 29 June 2017, the Swedish Government [announced](#) that it is proposing the adoption of more comprehensive control of armaments. The announcement said, in pertinent part:

The control of exports of military equipment is necessary to fulfill both the Swedish national objectives and international commitments, and to ensure that the products exported from Sweden go to approved countries.

The Government proposes that the democratic state of the receiving state should be a key condition when considering license applications. The requirements that the recipient country respect human rights will also be tightened. Another factor is whether the exports would discourage sustainable development in the recipient country. The government is also making proposals on improving transparency in the area, as well as rules on increased authorization and control.

The Government proposes that penalties should replace certain criminal sanctions for less serious violations in order to achieve a more effective system of sanctions, however criminal sanctions will be retained for the more serious offenses.

The amendments are proposed to enter into force on 1 April 2018. A report (in Swedish), [Tightened export control of military equipment](#) is available.

United Kingdom

Parliament looking at post- Brexit sanctions policy

The EU External Affairs Sub-Committee is [undertaking a short inquiry](#) into UK sanctions policy after Brexit.

Sanctions (arms embargoes, asset freezes, visa or travel bans, and trade embargoes) are one of the EU's tools to promote the objectives of the Common Foreign and Security Policy (CFSP): peace, democracy and respect for the rule of law, human rights and international law. The Council imposes EU sanctions through Council Decisions, which are adopted by the Member States by unanimity. The EU implements all sanctions imposed by the UN Security Council (UNSC). In addition, the EU may reinforce UNSC sanctions by applying additional measures or imposing autonomous sanctions.

The inquiry will explore: the advantages and disadvantages of future co-operation between the UK and the EU on sanctions policy; how such co-operation might take place; examples of EU co-ordination with non-Member States on sanctions; the current sanctions regime and how this will be transposed into UK law, including through the Great Repeal Bill; and the impact of a separate UK sanctions regime on the UK's ability to achieve its foreign policy goals.

Qatar

Qatar diplomatic crisis – the continuing report

The political and economic boycott of Qatar, which began on 5 June 2017 when Saudi Arabia, the United Arab Emirates, Bahrain and Egypt cut diplomatic ties with Qatar and moved to close off access to the Gulf country, continue to have a significant impact on international trade in the Middle East.

Since our [previous alerts on 7 June 2017](#) and [12 June 2017](#) the following developments have occurred:

1. Saudi Arabia, the UAE, Bahrain and Egypt issued a 13-point list of demands to Qatar on 22 June, which included curbing diplomatic ties with Iran, severing all ties with "terrorist organisations", closing the Al Jazeera television network, terminating the joint military cooperation with Turkey, aligning itself with other Gulf and Arab countries' policies, and consenting to audits and annual compliance monitoring. The demands were delivered to Kuwait, which was acting as mediator of the crisis, and Qatar was given 10 days to comply. On 2 July, the boycotting countries agreed to extend the deadline by two days at the request of Kuwait.
2. On 3 July, Qatar responded to the demands but no specific details were publicly released. The Qatari foreign minister said that the demands were not aimed at tackling terrorism but at curtailing Qatar's sovereignty, and were impossible to meet.
3. On 5 July, the foreign ministers of Saudi Arabia, the UAE, Bahrain and Egypt met in Cairo to consider Qatar's response and discuss the future of the crisis. They subsequently issued a joint statement condemning Qatar's negative response and confirming that the political and economic boycott would continue. The Saudi foreign minister said that further steps against Qatar will be taken at an appropriate time and will be in line with international law. Further consultations will be held in Bahrain at a later date.
4. Finance: Approaching the 2 July deadline, Qatar's stock market sank as much as 3.1 percent, bringing its total losses to 11.9 percent since 5 June. The Qatari Riyal exchange rate against the US dollar has been severely affected as the Qatar Central Bank pegged the Qatari Riyal at

3.64 as of 5 July. Qatar has also withdrawn 60 billion Qatari Riyals (USD 16 billion) from its deposits and borrowed 10 billion Qatari Riyals (USD 2.65 billion). On 30 June, it was reported in the press that several British banks announced that they stopped trading the Qatari Riyals.

5. Business: There are currently no publicly released restrictions on investment as between Qatar and the boycotting countries. In Saudi, the Saudi Ministry of Commerce and Investment recently gave its verbal instructions to government agencies to pause all applications for the issuance of commercial licenses and company registrations as well as other administrative actions that involve Qatari nationals.
6. Updated Terrorist Watch Lists: Saudi Arabia, Bahrain, the UAE and Egypt updated their terrorist watch lists by identifying the names of 59 individuals and 12 organizations that are deemed to be engaged in acts of terrorism or activities supporting terrorism. In the absence of any official instructions or guidelines it is unclear what specific actions will be taken against those persons who appear on the list (or any party that has any financial, commercial or other type of connection with such persons).
7. Shipping: Since Saudi Arabia, the UAE, Bahrain and Egypt (to a more limited extent - see below) banned all Qatari flag vessels or vessels owned by Qatari companies or individuals or carrying goods of Qatari origin from passing through their ports, shipping lines appear to have put in place alternative arrangements where the product is discharged first to a third party country (such as Oman) before onward shipment to Qatar. Shipments from the United States or European Union to Qatar are not prohibited.
8. Oil and gas: State-run Qatar Petroleum announced its plans to increase gas production from its giant North Field by 20 percent amid the diplomatic crisis. It is the world's biggest gas field which the country shares with Iran.

Webinars, Meetings, Seminars, Etc.

Anti-Bribery and Corruption Seminar

Tuesday 26 September, 8:30 am – 4:30 pm

The opening day of our Annual Anti-Bribery, Trade and Customs Conference will focus on anti-bribery and corruption. The past year has seen major enforcement activity and far-reaching legislative developments across the world which we will be exploring throughout the day. Please [click here](#) for the full agenda.

Export Controls and Trade Sanctions Seminar

Wednesday 27 September, 9:00 am – 5:30 pm

This session will update delegates on key recent developments in EU, UK, US and international export controls and trade sanctions. In particular, we will provide an update on the latest developments related to sanctions against Iran, Sudan, Russia, Cuba and North Korea, both in the EU and under the new Trump administration, whilst also discussing potential trade implications arising from Brexit and the boycott against Qatar by various Gulf and Arab nations. Please [click here](#) for the full agenda.

Customs Seminar: Impact of Brexit, Trump and other key developments

Thursday 28 September, 8:30 am – 5:00 pm

The final day of our conference will focus on the expected impact on customs of Brexit, the impact of the Trump presidency on global trade and other key developments in the customs arena. Please [click here](#) for the full agenda.

We hope that you will be able to join us for what will be an interesting and fruitful three days. Please register as soon as possible as places are limited.

For further information relating to the London event please contact Kate.Bullard@bakermckenzie.com.

ANNUAL INTERNATIONAL TRADE & COMPLIANCE CONFERENCE

Thursday 21 - Friday 22 September — Amsterdam

CONTACT US

FEEDBACK

FORWARD

WEBSITE

We would like to invite you to our 7th Annual International Trade & Compliance Conference on **Thursday 21 September and Friday 22 September 2017** at the Sheraton Amsterdam Airport Hotel.

The conference will provide you with an overview of significant developments with respect to export controls, trade sanctions and customs regulations as well as anti-bribery enforcement trends.

Our colleagues from the Middle East will also provide an update on the latest developments and practical challenges with the sanctions imposed on Qatar.

We will bring together presenters from a number of our offices, including Amsterdam, Frankfurt, London, Moscow, San Francisco, Singapore, the United Arab Emirates and Washington D.C. Among them are former White House and U.S. Department of Justice officials. In addition we have invited corporate speakers to reflect on the implications of these international compliance matters for their own companies. Further details as well as the **speakers at our conference** are set out in the current program.

Location

Sheraton Amsterdam Airport Hotel
Schiphol Boulevard 101
1118 BG Amsterdam

CBSA Advance Rulings

No new [advance rulings](#) were posted by the Canada Border Services Agency (CBSA). In September of 2014, the CBSA enhanced the Advance Ruling ([Tariff Classification](#) and [Origin](#)) and [National Customs Ruling](#) programs by publishing ruling letters in their entirety, with the applicant's consent, on the CBSA Web site.

CBP Rulings: Downloads and Searches

As US Customs and Border Protection (CBP) issues several thousand rulings a year, it is not practical to list each ruling. However, almost all rulings issued by US Customs or CBP from 1993 to the present and many issued before 1993 are available for search and downloading using the [CROSS search engine](#). Over 190,000 such rulings are in the database.

CBP Rulings: Revocations or Modifications

The following table summarizes proposals made or actions taken that were published in the weekly [Customs Bulletin and Decisions](#) during the past month by US Customs and Border Protection pursuant to 19 U.S.C. §1625(c) to revoke or

modify binding rulings or treatment previously accorded to substantially identical merchandise.

Published in CBP Bulletin (P) Proposed (A) Action	Product(s) or Issue(s)	Ruling(s) to be Modified (M) or Revoked (R)	Old Classifi- cation or Po- sition	New Ruling	New Classification or Position	Comments Due (C) or Effective Date (E)
Proposed Revocations/modifications

European Classification Regulations

The table below shows the Classification Regulations that were published in the *Official Journal* during the period covered by this *International Trade Compliance Update*.

Commission Implementing Regulation	Description of the goods	Classification (CN code)	Reasons
(EU) 2017/1166 of 26-06-17	<p>An electrical apparatus (so-called 'video converter'), rectangular shaped, with dimensions of approximately 17 × 14 × 4 cm. The apparatus has the following sockets:</p> <ul style="list-style-type: none"> — a Serial Digital Interface (SDI), — a High Definition Multimedia Interface (HDMI), — an RJ-45 interface, and — a power connector. <p>The apparatus is designed to convert video signals from SDI format to HDMI format.</p>	8543 70 90	<p>Classification is determined by general rules 1 and 6 for the interpretation of the Combined Nomenclature, note 3 to Section XVI and by the wording of CN codes 8543 , 8543 70 and 8543 70 90 .</p> <p>The RJ-45 interface (communication function via Ethernet) is ancillary to the principal function (video conversion), as it serves only to receive updates while no video signals are transmitted via that interface. Classification under heading 8517 is therefore excluded.</p> <p>Consequently, the apparatus is to be classified under CN code 8543 70 90 as other electrical machines and apparatus, having individual functions, not specified or included elsewhere in</p>

Commission Implementing Regulation	Description of the goods	Classification (CN code)	Reasons
	The RJ-45 interface serves to connect the apparatus to the Ethernet only for the software updates and to get electric power needed for those updates (Power over Ethernet ('PoE')).		Chapter 85.
(EU) 207/1167 of 26-06-17	<p>A knitted brassière (61 % nylon, 20 % elastane, 12 % cotton, 7 % viscose), with adjustable broad padded shoulder straps, centrally positioned over the breasts, with shaped cups and elastication at the back part of the base.</p> <p>There is an embroidered design on the shoulder straps and cups and a decorative bow at the centre front.</p> <p>The article is closed by means of an adjustable 'hook and eye fastening'.</p> <p>The brassière has a lining in the cups, with side openings for the insertion of padding for the enhancement of breasts (aesthetic purposes) or for the insertion of breast forms following a mastectomy.</p> <p>See images</p> 	6212 10 90	<p>Classification is determined by general rules 1 and 6 for the interpretation of the Combined Nomenclature and by the wording of CN codes 6212 , 6212 10 and 6212 10 90 .</p> <p>The article has the objective characteristics (the form and the construction) of a brassière of heading 6212 , which includes brassières of all kinds (see also the Harmonised System Explanatory Notes to heading 6212 , second paragraph (1)).</p> <p>Although the article can also be worn by women following a mastectomy, classification under heading 9021 as an orthopaedic appliance or as a part or accessory of an artificial part of the body is excluded because, at the time of importation, the objective characteristics of the product are those of a brassière of heading 6212 and do not give any indication of the final use (for aesthetic or medical purposes).</p> <p>The side openings do not make the brassière a product of heading 9021 as they can serve both for the insertion of breast forms following a mastectomy and for the insertion of padding for the enhancement of breasts (aesthetic purposes). Similarly, the broad shoulder straps, centrally positioned over the breasts are a common feature for bigger cup brassières of heading 6212 .</p> <p>Therefore, the article is to be classified under CN code 6212 10 90 as a brassière.</p>
(EU) 207/1168 of 26-06-17	<p>An article (so-called 'steering wheel cover') made of plastics (polyvinyl chloride (PVC)), forming a circle with a diameter of 38 cm.</p> <p>The article is designed to cover the steering wheel of a motor vehicle in order to improve its appearance, to protect the steering wheel against the sweat, wear and tear caused by its use and to protect hands from hot and cold extremes.</p> <p>See image</p> 	3926 90 97	<p>Classification is determined by general rules 1 and 6 for the interpretation of the Combined Nomenclature and by the wording of CN codes 3926 , 3926 90 and 3926 90 97 .</p> <p>Classification under subheading 8708 94 as a part of a steering wheel is excluded as the article is not indispensable for the function of the steering wheel.</p> <p>Classification under subheading 8708 99 as other parts or accessories of motor vehicles of headings 8701 to 8705 is also excluded as the article is not indispensable for the function of the motor vehicle, nor does it adapt the motor vehicle for a particular operation, or increase its range of operations, or enable it to perform a particular service connected with its main function (see Case C-152/10, Unomedical, ECLI:EU:C:2011:402, paragraphs 29 and 36).</p>

Commission Implementing Regulation	Description of the goods	Classification (CN code)	Reasons
			Consequently, the article is to be classified according to its constituent material (plastics) under CN code 3926 90 97 as other articles of plastics.
(EU) 207/1169 of 26-06-17	<p>An article in a form of a ball (so called 'paintball') made of a hard gelatine shell containing water-based paint.</p> <p>The article is designed to be used as a projectile for a paintball gun (air gun with a nozzle velocity of 91 meters per second) during the multi-player game 'paintball'.</p> <p>See images</p> 	9306 90 90	<p>Classification is determined by general rules 1 and 6 for the interpretation of the Combined Nomenclature, note 1 (s) to Chapter 95 and by the wording of CN codes 9306 , 9306 90 and 9306 90 90 .</p> <p>The article is designed as a projectile for a paintball gun, which is an air gun of heading 9304 due to its considerable nozzle velocity (see Commission Regulation (EC) No 242/96 (OJ L 31, 9.2.1996, p. 16)).</p> <p>The paintball is a projectile used for shooting with air guns similar to pellets or darts. Therefore, the paintball is another kind of ammunition (see also the Harmonised System Explanatory Notes to heading 9306 , (A) (3)).</p> <p>Classification as a product of Chapter 95 is therefore excluded by virtue of note 1 (s) to that Chapter.</p> <p>Consequently, the article is to be classified under CN code 9306 90 90 as a projectile.</p>
(EU) 207/1170 of 26-06-17	<p>A compact battery-operated fingertip apparatus (so called 'pulse oximeter') combining an electronic processor, a pair of light emitting diodes (LED), a photo diode and an LED display (offering various display modes) in one unit. It is also equipped with a low battery indicator, an alarm function in case of high or low pulse rate or blood oxygen, and a 'clip in' attachment to the finger.</p> <p>It is used as a non-invasive method of monitoring a person's oxygen saturation and for measuring a pulse by means of optical radiation. After attaching to a person's finger, the LED pass two different wavelengths of light through the finger to a photo diode. It measures the changing absorbance at each of the wavelengths and subsequently determines/calculates the oxygen saturation and heart rate.</p> <p>It can be used in professional medical practice and in research, sport, business etc. (for example, oxygen chambers, extreme mountaineering in low oxygen atmosphere, deep-sea diving; by pilots, firefighters, astronauts etc.).</p>	9018 19 10	<p>Classification is determined by general rules 1 and 6 for the interpretation of the Combined Nomenclature and by the wording of CN codes 9018 , 9018 19 and 9018 19 10 .</p> <p>The apparatus falls under the scope of heading 9018 which covers a very wide range of instruments and appliances which, in the vast majority of cases, are used only in professional practice to prevent or treat an illness or to operate, etc. The instruments and appliances classified here may be equipped with optical devices; they may also make use of electricity (see also the Harmonised System Explanatory Notes to heading 9018). While this kind of apparatus can be used by non-professionals, it is of a kind used for medical purposes as it provides information concerning 'vital body functions' that may need to be further analysed by professionals.</p> <p>Classification under heading 9027 as instruments and apparatus for physical or chemical analysis using optical radiation is consequently excluded.</p> <p>It is therefore to be classified under CN code 9018 19 10 as instruments and apparatus used in medical science, monitoring apparatus for simultaneous monitoring of two or more parameters.</p>

Commission Implementing Regulation	Description of the goods	Classification (CN code)	Reasons
	See image 		
(EU) 2017/1232 of 03-07-17	<p>A circular article with a diameter of approximately 500 mm and a weight of approximately 23 kg. It is made of a spheroidal graphite cast iron (ductile iron, EN-GJS-500-7). The article is painted with black bitumen for protection against corrosion.</p> <p>The article is certified according to EN 124 standard (gully tops and manhole tops for vehicular and pedestrian areas) and it is used as a sewer cover (for example, for rainwater sewers).</p> <p>See image_</p> 	7325 99 10	<p>Classification is determined by general rules 1 and 6 for the interpretation of the Combined Nomenclature and by the wording of CN codes 7325 , 7325 99 and 7325 99 10 .</p> <p>The Explanatory notes to the Combined Nomenclature (CNEN) to CN code 7307 19 10 define malleable cast iron. According to those notes, the expression 'malleable' includes spheroidal graphite cast iron. For reasons of legal certainty and in order to ensure coherent interpretation of the CN those CNEN should be applied by analogy also to heading 7325 . Classification of the article under CN code 7325 10 00 as other cast articles of non-malleable cast iron is consequently excluded.</p> <p>The article is therefore to be classified under CN code 7325 99 10 as other cast articles of malleable cast iron.</p>
(EU) 2017/1233 of 03-07-17	<p>A new, four-wheel drive multipurpose motor vehicle (of the van-type). The vehicle has a compression-ignition internal combustion piston engine of a cylinder capacity exceeding 1 500 cm³ but not exceeding 2 500 cm³. Its total gross weight is approximately 2 800 kg.</p> <p>The vehicle has two rows of seats, the first row with two seats (a driver's seat and a 'bench seat' to be used by two passengers) and a second row with three seats. There are doors with a window on both sides of the first row of seats and, in respect of the second row of seats, a window on the left side and a sliding door with a window on the right side.</p> <p>Behind the second row of seats there is a permanent barrier (partition grille) dividing the passenger area from an area for the transport of goods. There are neither safety belts nor fittings for their installation</p>	8703 32 19	<p>Classification is determined by general rules 1 and 6 for the interpretation of the Combined Nomenclature and by the wording of CN codes 8703 , 8703 32 and 8703 32 19 .</p> <p>The classification of multipurpose motor vehicles is determined by certain features which indicate whether the vehicles are principally designed for the transport of persons or for the transport of goods (see also the Harmonized System Explanatory Notes to headings 8703 and 8704 and the Explanatory notes to the Combined Nomenclature to heading 8703).</p> <p>Classification under heading 8704 as a vehicle for the transport of goods is excluded as the objective characteristics and the general appearance of the vehicle are those of a vehicle principally designed for the transport of persons (presence of a second row of seats with safety equipment, presence of four windows, presence of a sliding door with a window for the rear passengers, presence of comfort features in the area for</p>

Commission Implementing Regulation	Description of the goods	Classification (CN code)	Reasons
	<p>in the area for the transport of goods. There is a back door of a swing-out type but no windows in the area for the transport of goods. The vehicle has comfort features and interior finish and fittings which are associated with the passenger areas of vehicles.</p> <p>The area for the transport of goods is of a length of approximately 1,9 m and of a load capacity of 4,4 m³.</p>		<p>both front and rear passengers). The presence of a permanent barrier between the area for passengers and the area for the transport of goods cannot be taken as the decisive criterion for excluding classification under heading 8703 as this is a typical feature of many vehicles classified as vehicles for the transport of persons (typically SUV vehicles). See also the Harmonized System classification opinions 8703 32/1 and 8703 32/2 .</p> <p>The vehicle is therefore to be classified under CN code 8703 32 19 as new motor vehicles principally designed for the transport of persons.</p>
(EU) 2017/1234 of 03-07-17	<p>A composite product consisting of the following components:</p> <ul style="list-style-type: none"> – a vertical aluminium column approximately 95 cm high, with an axle at the base and a plastic wheel affixed at either end of the axle, – a foldable, horizontal aluminium board designed for standing on, with a plastic wheel affixed at the far end with a brake mechanism attached to it, – a suitcase with an outer surface made of moulded plastic material, measuring approximately 55 cm × 30 cm × 20 cm and fixed to the vertical column by clamps which can be opened. <p>The product is intended for use by anyone aged 8 or over. Its function as a means of transporting goods can be combined with its function as a scooter or, it can be drawn or pushed along in order to transport the suitcase on the wheels, when the horizontal board is up.</p> <p>See images of the article_</p> 	4202 12 50	<p>Classification is determined by general rules 1, 3(b) and 6 for the interpretation of the Combined Nomenclature, and by the wording of CN codes 4202 , 4202 12 and 4202 12 50 .</p> <p>The product is composite goods. Its main function is essentially to transport goods in the suitcase. This can be done either by someone standing on the horizontal board and propelling the product along (with the board folded down) or by someone pushing or pulling it along in the same way as a conventional trolley suitcase on wheels (with the board folded up).</p> <p>The scooter components (components not being parts of standard trolley bags, that is, the foldable horizontal board with a plastic wheel (with a brake)) are of subordinate character that facilitates the transport of goods contained in the suitcase. It is therefore the suitcase that gives the product its essential character. Classification under heading 8716 as other vehicles, or under heading 9503 as a scooter, is accordingly excluded.</p> <p>The product is therefore to be classified under CN code 4202 12 50 as a suitcase with an outer surface of moulded plastic material.</p>
(EU) 2017/1266 of 11-07-17 repealing (EC) 2494/96 of 23-12-96	<p>Commission Regulation (EC) No 2494/96 (3) classified a 'sheet of polyethylene terephthalate of a thickness not exceeding 10 micrometres coated with a thermal ink and put up in rolls of a width of 62 cm' under heading 3215 of the Combined Nomenclature as 'Printing ink, writing or drawing ink and other inks,</p>	Repealed	<p>Classification of the product under heading 3215 was based on General rule 3(b) for the interpretation of the Combined Nomenclature, but the reasoning does not go into detail as regards the possible headings to be considered when applying General rule 3(b). In particular, the reasons for the exclusion of heading 9612, which covers, apart from inkpads, 'typewriter or similar ribbons,</p>

Commission Implementing Regulation	Description of the goods	Classification (CN code)	Reasons
	<p>whether or not concentrated or solid'.</p> <p>Regulation (EC) No 2494/96 concerns the so-called 'jumbo rolls' which are not ready-to-use products but actually rolls of a considerable length that cannot be put into a typewriter or similar machine without a further manufacturing process step. That information is missing in the product description in the Annex to Regulation (EC) No 2494/96 and the absence of that information may lead to incorrect tariff classifications of ready-to-use inked ribbons. Inked ribbons which are ready-to-use are to be classified under heading 9612.</p>		<p>inked or otherwise prepared for giving impressions, whether or not on spools or in cartridges', are missing.</p> <p>As the product concerned by Regulation (EC) No 2494/96 is no longer available on the market, that Regulation is no longer deemed necessary. Most inked ribbons now available on the market, even of a considerable width and length, can be used directly when put into a typewriter or similar machine without a further manufacturing process step. Additionally, an explanatory note to CN subheadings 9612 10 10 to 9612 10 80 ('ribbons') will be created to provide guidance concerning the tariff classification of inked ribbons.</p> <p>As a consequence, Regulation (EC) No 2494/96 should be repealed in order to avoid potential divergences in tariff classification of inked ribbons and to ensure the uniform application of the Combined Nomenclature within the Union.</p>
<p>(EU) 2017/1267 of 11 July 2017</p>	<p>A product in the form of a fine, white, odourless powder consisting of microspheres (particle size < 10 µm) with a density of approximately 2,1-2,5 g/cm³.</p> <p>The microspheres consist of nepheline or nepheline syenite that has been heated to make the material more ellipse-shaped and to round off the rough edges. As a result of this process, the nepheline or nepheline syenite forms a glassy surface. Nepheline and nepheline syenite are sodium potassium aluminosilicates.</p> <p>The product is used as an additive for paints, coatings and films in order to reduce volatile organic compound levels, increase filler loadings, improve hardness, and add burnish, scrub and abrasion resistance.</p>	<p>2842 10 00</p>	<p>Classification is determined by general rules 1 and 6 for the interpretation of the Combined Nomenclature, and by the wording of CN codes 2842 and 2842 10 00 .</p> <p>Classification under heading 2529 is excluded because the glassy surface of the nepheline or nepheline syenite means that its crystalline structure has been modified by the heating process (see Note 1 to Chapter 25 and also the Harmonized System Explanatory Notes (HSEN) to Chapter 25, General, second paragraph).</p> <p>Classification under heading 2621 is excluded because the product is neither slag nor ash, nor a residue from the incineration of municipal waste.</p> <p>Classification under heading 3816 is excluded because there is no added binder (see also the HSEN to heading 3816 , first paragraph).</p> <p>Classification under heading 3824 is excluded because the heading which provides the most specific description is to be preferred to headings providing a more general description.</p> <p>Classification under heading 6806 is excluded because the product is not an expanded mineral material.</p> <p>Classification under heading 6815 is excluded because the product is not a finished or semi-finished 'article of mineral substances' but rather it is an ancillary material used in the manufacture of articles.</p> <p>Therefore the product is to be classified under CN code 2842 10 00 as double or complex sili-</p>

Commission Implementing Regulation	Description of the goods	Classification (CN code)	Reasons
			cates, including aluminosilicates whether or not chemically defined.
(EU) 2017/1268 of 11 July 2017	<p>A product in the form of fine white wax beads of approximately 1 mm in diameter, obtained from refined palm oil.</p> <p>The product consists of:</p> <ul style="list-style-type: none">— hydrogenated hard palm stearin,— non-hydrogenated hard palm stearin,— an optical brightener (approx. 0,01 % by weight). <p>Palm stearin obtained from palm oil is subjected to a multi-stage fractionation and the hard stearin (solid fraction) is separated from the soft stearin. Then, a part of the hard stearin is subjected to a hydrogenation process, and mixed with the non-hydrogenated part of the hard stearin and with an optical brightener. Subsequently, the obtained product is subjected to a beading process.</p> <p>The product is of waxy character and is used as raw material for manufacturing candles.</p> <p>The dropping point is 59,2 °C ± 0,5 °C and the viscosity measured with a rotational viscometer does not exceed 10 Pa.s at a temperature of 10 °C above the dropping point.</p> <p>The product is packed in 25 kg bags.</p>	<p>3404 90 00</p> <p>Classification is determined by general rules 1 and 6 for the interpretation of the Combined Nomenclature, Note 5, first paragraph, letter (a) to Chapter 34 and the wording of CN codes 3404 and 3404 90 00 .</p> <p>Classification under heading 1516 is excluded as the product is a mixture of hydrogenated hard stearin and non-hydrogenated hard stearin. The product has been prepared beyond the scope of heading 1516 , and is neither an oil nor a fat. Moreover, the presence of the optical brightener excludes the product from heading 1516 .</p> <p>Classification under heading 1517 is excluded as the product is not an edible mixture or preparation covered by the scope of heading 1517 .</p> <p>Classification under heading 1521 is excluded as the product is mainly composed of palm stearin which is a triglyceride.</p> <p>In accordance with Note 5, first paragraph, letter (a) to Chapter 34, chemically produced organic products of a waxy character, whether or not water-soluble, are covered by heading 3404 . The product also fulfils the criteria of artificial wax (see also the Harmonised System Explanatory Notes to heading 3404 , letter A).</p> <p>The product is therefore to be classified in CN code 3404 90 00 as other artificial waxes and prepared waxes.</p>	

Amendments to the CN Explanatory Notes

The table below shows amendments to the explanatory notes to the *Combined Nomenclature of the European Union* that were published in the *Official Journal* during the period covered by this *International Trade Compliance Update*.

Official Journal	CN code or page	Description of Articles
2017/C 226/04 14-07-17	Pg.388 9612	Add new text to the explanatory note to CN subheadings '9612 10 10 to 9612 10 80 Ribbons'

Section 337 Actions

In the United States, section 337 of the Tariff Act of 1930 as amended (19 U.S.C. §1337) provides *in rem* relief from unfair practices in import trade, including unfair methods of competition in the importation of articles, importation and sale in

the United States of articles which infringe US patents, registered trademarks, copyrights or mask works. Listed below are 337 actions published during the past month by the US International Trade Commission, the independent United States agency charged with enforcement of section 337.

Inv. №	Commodity	Action
337-TA-929	Certain Beverage Brewing Capsules, Components Thereof, and Products Containing the Same	(Enforcement & Rescission Proceeding) Commission Determination Finding No Violation of the Remedial Orders; Determination Not To Rescind the Remedial Orders; Termination of the Consolidated Enforcement and Rescission Proceeding
337-TA-989	Certain Automated Teller Machines, ATM Modules, Components Thereof, and Products Containing the Same	Commission's Final Determination Finding a Violation of Section 337; Issuance of a Limited Exclusion Order and Cease and Desist Orders; Termination of the Investigation
337-TA-1000	Certain Motorized Self-Balancing Vehicles	Supplemental Notice of Request for Statements on the Public Interest
337-TA-1010	Certain Semiconductor Devices, Semiconductor Device Packages, and Products Containing Same	Notice of Request for Statements on the Public Interest
337-TA-1015	Certain Hand Dryers and Housings for Hand Dryers	Commission Determination To Review In-Part an Initial Determination Granting Complainant's Motion for Summary Determination of Section 337 Violation by the Defaulting Respondents
337-TA-1048	Certain Intravascular Administration Sets and Components Thereof	Notice of a Commission Determination Not to Review an Initial Determination Finding Respondent Yangzhou Weideli Trade Co., Ltd. in Default; Request for Submissions
337-TA-1062	Certain Backpack Chairs	Institution of an Investigation based on a complaint filed on behalf of Rio Brands, LLC alleging patent infringement

In addition to the above actions, the ITC has published notices indicating that it has received complaints filed on behalf of the following companies alleging violations of §337 with regard to the listed commodities and soliciting comments on any public interest issues raised by the complaints:

Ref. №	Commodity	Complaint filed on behalf of:
DN 3233	Certain X-Ray Breast Imaging Devices and Components Thereof	Hologic, Inc.
DN 3234	Certain Shielded Electrical Ribbon Cables and Products Containing the Same	3M Company and 3M Innovative Properties Company
DN 3235	Certain Mobile Electronic Devices and Radio Frequency and Processing Components Thereof	Qualcomm Incorporated
DN 3236	Certain Recombinant Factor IX Products	Bioverativ Inc.; Bioverativ Therapeutics Inc.; and Bioverativ U.S. LLC
DN 3238	Certain Road Milling Machines and Components Thereof	Wirtgen America, Inc.

Antidumping, Countervailing Duty and Safeguards Investigations, Orders & Reviews

In order to assist our clients in planning, we are listing antidumping, countervailing duty and safeguards notices published or posted during the past month from the US, Canada, Mexico, the EU, Australia, India, Brazil, and occasionally other countries. (Click on blue text for link to official document.)

Key: AD, ADD=antidumping, antidumping duty; CV, CVD=countervailing duty or subsidy; LTFV=less than fair value.

United States Department of Commerce, International Trade Administration (ITA)

©2017 Baker & McKenzie. All rights reserved. Baker & McKenzie International is a Swiss Verein with member law firms around the world. In accordance with the common terminology used in professional service organizations, reference to a “partner” means a person who is a partner, or equivalent, in such a law firm. Similarly, reference to an “office” means an office of any such law firm.

This may qualify as “Attorney Advertising” requiring notice in some jurisdictions. Prior results do not guarantee a similar outcome.

This UPDATE is issued to inform Baker & McKenzie clients and other interested parties of legal developments that may affect or otherwise be of interest to them. The comments above do not constitute legal or other advice and should not be regarded as a substitute for specific advice in individual cases.

Before you send an e-mail to Baker & McKenzie, please be aware that your communications with us through this message will not create a lawyer-client relationship with us. Do not send us any information that you or anyone else considers to be confidential or secret unless we have first agreed to be your lawyers in that matter. Any information you send us before we agree to be your lawyers cannot be protected from disclosure.

NOTE: This Update contains public sector information licensed under the Open Government Licence v3.0 of the United Kingdom. In addition, the Update uses material pursuant to European Commission policy as implemented by [Commission Decision of 12 December 2011](#).
