

Education

In today's educational landscape, schools at all levels face stiff competition, ever-changing standards and budgetary challenges. With vast experience in tax planning, labor law, dispute resolution, real estate and intellectual property, our lawyers help manage the administrative details so educators can focus on the big picture: providing students with the best learning environment possible.

We have a unique and in-depth understanding of the education sector in the UAE having advised numerous universities, schools and other educational institutions on various matters, including their creation and operations. As a prominent member of the UAE community, the Chairman of our UAE practice, Dr. Habib Al Mulla, has a keen interest in the development of better education for Emirati youth. He is actively involved in the education sector and holds numerous posts on the boards of educational institutions.

We advise on all areas of law relating to the education sector including procurement, financing, projects and infrastructure, construction contracts, related corporate and commercial law, regulation and compliance, operations, licensing and disputes.

Representative Deals

Lenders to a large university PPP project

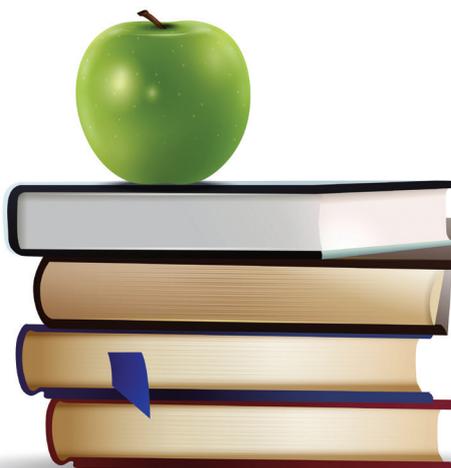

- Local counsel for the lenders of one of the largest university PPP projects in the region. The university is being constructed in Abu Dhabi. In this role we have prepared a comprehensive due diligence report in respect of all project documents including the operating agreement, and are providing advice on all local law issues to the lenders and their foreign counsel.

New York University Abu Dhabi

- Advised on several regulatory, compliance and research matters.

Zayed University

- Advised on regulatory and governance issues.
