Raising capital

Despite fluctuations in financial markets, cross-border capital flows remain a vital part of the capital markets. At Baker & McKenzie, we offer broad resources and reach to help plan and execute viable, innovative capital structures anywhere in the world. Our more than 300 securities lawyers work collaboratively across 67 jurisdictions — enabling us to quickly bring the right talent to every issue and provide sound legal and business advice on high-stakes corporate fundraising transactions.

We regularly advise investment banks, issuers, shareholders, governments and some of the largest public and emerging private companies in a wide variety of capital markets transactions including debt, equity and equity-linked issues, and in complex, multijurisdictional acquisitions and divestitures involving public companies. We have assisted some of the largest companies across a wide range of industries in landmark offerings, and can tailor practical solutions in complex and unprecedented transactions. We integrate with client project teams seamlessly to help them pursue funding opportunities.

Active in US capital markets, Euromarkets, and Asian markets, our Securities practice ranks among the top 10 in Asia Pacific, Europe/Middle East and the United States/North America in debt and equity league tables.
