**3+ DECADES OF EXPERIENCE
HANDLING SIGNIFICANT
PATENT LITIGATION MATTERS**

WHAT WE DO

LITIGATION

We represent clients in first instance and appellate patent infringement litigation, particularly developing and executing patent enforcement strategies to resolve multijurisdictional disputes in 30+ countries around the world.

ADR

We act in patent and design arbitration and other ADR proceedings where possible and advantageous to the client, for a more efficient and cost-effective resolution.

STRATEGIC ADVICE

We advise on complex patent questions across the full range of technical specializations, including issuing opinions on patentability, validity, and infringement, and provide strategic advice on the most suitable jurisdiction and forum for any dispute.

ADMINISTRATIVE PROCEEDINGS

We regularly represent clients across a wide range of industries before patent administrative bodies, including in validity trials and hearings.

WHY WE ARE DIFFERENT

Technical Expertise

Our team of patent lawyers and agents hold undergraduate and advanced technical degrees, possess practical work experience as engineers in various technologies and also include former patent examiners.

Sector Focus

We have particular expertise in digital media, optical devices, circuits and controls, computer software, biotechnology, pharmaceuticals, medical devices, petrochemicals, electronics/semiconductors, mechanical and financial sectors.

Efficiency & Pricing

Our sophisticated methods and technologies for effective and efficient case management are a result of three decades of patent litigation experience.

Knowhow

We invest in client knowhow, including our Employee Creations Handbook, Global Patent Litigation Handbook and Trade Secrets Handbook.

INNOVATORS
FROM ATTACKS BY
PATENT TROLLS**

"Baker McKenzie's trademark division may make most of the headlines, but patent owners are consistently delighted by the service on offer at this innovative firm. The global titan achieves the rare distinction of having practitioners ranked in three continents – South America, Asia and Europe, where the Moscow contingent continue to knock it out of the park on a range of hard IP briefs. Whatever the legal regime, companies can rest assured that their instructions will be handled in a way that maximizes the value of their crown-jewel assets." IAM PATENT 1000 SURVEY

"The 'very responsive and highly commercial' team at Baker McKenzie LLP 'goes out of its way to meet clients' needs in a creative and solution-oriented way.'" LEGAL 500

"Baker & McKenzie always provides outstanding service and expertise. While we tend to use them for dispute related issues, we have also utilised their world wide foot print and expertise with regards to a number of media issues in areas like China, the Middle East and the EU." World IP Review

IAM Patent

Successfully represented global oil and gas client in patent infringement and trade secret misappropriation case with more than 100 claims across 12 patents regarding drilling technology, resulting in findings of willful infringement of 5 patents, a permanent injunction and enhanced damages, and a complete defense of the USD 300 million antitrust counterclaims.

Represented one of the largest railways in North America in a precedent cross-border patent infringement case involving e-commerce online tools to order freight shipments.

Won two international and high-profile patent infringement trials relevant to a new and emerging market for one of the world's largest cosmetics and beauty companies.

Conducted freedom-to-operate searches and analysis on a medical device product in connection with the client's proposed investment into a PRC medical device company.

Assisted client in defending against large damages claim for design patent infringement, utilizing an aggressive defense strategy. This included challenging the validity of the registration and presenting a counterclaim, resulting in a settlement for a fraction of the original USD 85 million and shielding the client from criminal liability and reputational damage.

Provided advice on design patent infringement analyses based on the fashion client's design patents against a defendant who copied the client's products since 2015, as well as advising on design patent invalidation proceedings to invalidate copycat's copied design patents.

Advised a technology company that provides cash handling products and services in numerous patent litigation matters, including a high-profile patent infringement suit against the Federal Government of the United States of America concerning US electronic passports and corresponding scanning devices.

Represented a multi-billion electronics company in patent infringement proceedings initiated by a patent troll relating to data storage solutions and database software.
