PATENT LITIGATION

3+ DECADES OF EXPERIENCE
HANDLING SIGNIFICANT
PATENT LITIGATION MATTERS

WHAT WE DO

Litigation

We represent clients in first instance and appellate patent infringement litigation, in 30+ countries around the world

ADR

We act in patent and design arbitration and other ADR proceedings where possible, as it is less formal, less expensive, and less time-consuming than a trial

Strategic Advice

We advise on complex patent questions across the full range of technical specialisations, including issuing opinions on patentability, validity, and infringement

Administrative Proceedings

We represent clients before patent administrative bodies in validity trials and hearings

WHY WE ARE DIFFERENT

Track Record

We have more than three decade's experience handling significant local and cross-border patent litigation matters

Sector Focus

We have particular expertise in the digital media, optical devices, circuits and controls, computer software, healthcare, and financial sectors

Efficiency & Pricing

Our sophisticated methods and technologies for effective and efficient case management are a result of three decades of patent litigation experience

KnowHow

We invest in client knowhow, including our Employee Creations Handbook and Global Patent Litigation Handbook

CHAMBERS HAS RANKED US BAND 1 GLOBALLY FOR IP: 2009-2016

"Baker & McKenzie's trademark division may make most of the headlines, but patent owners are consistently delighted by the service on offer at this innovative firm. The global titan achieves the rare distinction of having practitioners ranked in three continents – South America, Asia and Europe, where the Moscow contingent continue to knock it out of the park on a range of hard IP briefs. Whatever the legal regime, companies can rest assured that their instructions will be handled in a way that maximises the value of their crown-jewel assets." —*IAM PATENT 1000 SURVEY*

"Baker & McKenzie's global reach makes everything easier for us - one-stop shopping." —*CLIENT QUOTE, CHAMBERS*
