Pillar 2

In brief

Baker Mckenzie has developed a modeling tool to navigate through the complexities of the Pillar Two Model Rules and the evolving Pillar Two regulations, which facilitates impact assessment and identifies potential risks and opportunities.

Key takeaways

In this webinar, we discussed the tool in depth, explaining how it enables tax leaders and company executives of multinational entities to make informed decisions with the impact data needed.

For those groups that have not yet started their impact assessment, now is the time to do so. The Belgian government has recently adopted a requirement to file the Pillar Two Notification Form with the Belgian tax authorities by 13 July 2024 in order to obtain a Pillar Two identification number (P2 TIN). The information required to complete the Pillar Two Notification Form actually requires a good understanding of the Pillar Two scope of the multinational enterprise or large-scale domestic group and the status of the various constituent entities. This topic was also touched on in the webinar.
