

## Representative Legal Matters

### David Lang

Prior to joining the firm, David worked on the following matters:

- Represented a US subsidiary of a Canadian company in its development of an LNG export facility and related pipeline on the US West Coast.
- Advised Santos on its long-term joint venture arrangements for the GLNG project in Queensland, Australia, as well as LNG marketing and sales from that joint venture.
- Assisted BG Group on the negotiation of LNG sales, terminal use, gas sales, and related agreements for a multi-user LNG regasification facility in Singapore, including sales of regasified LNG to all utilities in Singapore.
- Advised a Chinese state-owned company on its acquisition of a 10 percent stake in Atlantic LNG liquefaction plant in Trinidad & Tobago.
- Advised GasAtacama Chile on its negotiation of charter agreements for floating LNG receiving, storage and regas units to be moored offshore of Chile, along with related LNG shipping and LNG purchase agreements.
- Advised BG Group on its USD 1.3 billion project development of an LNG import terminal at Quintero, Chile, including negotiations for LNG sales, terminal use and downstream gas sales.
- Drafted and negotiated commercial agreements related to the development of several LNG import terminals in the United States, including engineering procurement, and construction contracts, construction management contracts, terminal use agreements, shared facilities agreements, and related documentation.

### Oil & Gas

- Advised Hopu Investments, a leading China-based private equity fund, on its investment in New Age (Africa Global Energy) Limited and related joint development of LNG export projects in Congo-Brazzaville, Cameroon and Nigeria.
- Assisted a portfolio company of a US-based private equity fund with its investment in and joint operations with a Southeast Asian oil and gas company with operations in Indonesia.
- Represented an independent exploration and production company in connection with the development of their upstream gas assets in offshore Malaysia, including negotiation of gas sales arrangements into a proposed FLNG facility.
- Advised a Chinese sovereign wealth fund on its acquisition of a 30% interest in the global E&P business of a European energy company.

- Advised a Chinese company on its entry into five production sharing contracts in the Ogaden Basin, Ethiopia.
- Represented a European state-owned oil and gas company in its sale of an interest in oil and gas assets offshore Brazil to a major Chinese company.

#### **Petrochemicals**

- Assisted an Asian petrochemical company on its development of ethane cracker in the United States.
- Advised a petrochemical company on the merger of its American styrenics business with another major petrochemical company, including drafting and negotiating facility reconfiguration agreements, operating service agreements, and feedstock supply and product sales agreements.
- Represented a petrochemical company in the sale of its commodities chemicals business, with particular focus on splitting out facilities from larger complexes and related services agreements.
- Advised a petrochemical company on its development of a large ethylene and polyethylene complex in Trinidad & Tobago, including work on joint venture arrangements, project agreements, and EPC matters.
